JUL 3, 1948  
UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND RODENTICIDE ACT  
FOR ECONOMIC POISON REGISTERED  
UNDER NO. 5666-1

## DIRECTIONS FOR USE:

MAR-VON MOTH CRYSTALS are made from pure para-dichlorobenzene. It is an insecticide used to kill moth worms, larvae and eggs, and as a deodorant to control objectionable odors. It vaporizes to form a heavier than air gas which in proper concentrations will kill all moths, larvae and eggs in the articles or area being treated. For best results the crystals should be placed near the top of the enclosed area, or used in the vaporizer of your vacuum cleaner.

**QUANTITY TO USE:** At least one (1) ounce for each five (5) cubic feet of space.

**METHOD OF USING:** In chests, trunks and box type containers, place articles to be protected in one of these reasonably air-tight containers and sprinkle crystals on top layer of the contents in the recommended quantities, and close the container. In closets, store rooms and clothes bags, MAR-VON MOTH CRYSTALS should be placed on an upper shelf or suspended from a high point in a porous bag. This allows the vapors to drift downward. Odor will disappear in minutes when exposed to air.

**TO PROTECT RUGS:** After cleaning, sprinkle crystals between folds and wrap in heavy paper so that it is reasonably air tight. Use approximately one (1) pound of MAR-VON MOTH CRYSTALS for a 9 x 12 rug.

**FOR USE AS A DEODORANT:** For the control of objectionable odors such as those common to wash rooms, lavatory drains, garbage cans, and unpleasant odors in the automobile and home. MAR-VON MOTH CRYSTALS are more efficient when placed above the area so the heavier than air vapors will drift downward. To deodorize the entire house, fill the vaporizer of your vacuum cleaner and let the warm air flow through the crystals or sprinkle crystals about in each room.

MAR-VON MOTH CRYSTALS are easy to use and quick acting; its odor is not disagreeable and quickly disappears when exposed to air. It is 100% active mineral; is not harmful to the skin nor to woollens, furs, fabrics or material.

MAR-VON MOTH CRYSTALS thoroughly protect the following items from any damage of moths: Furs, Carpets, Rugs, Fabrics, Woolens, Clothing, Upholstered Furniture.

**MAR-VON MOTH CRYSTALS LEAVE NO ODOR AND WILL NOT STAIN.**
