ACCEPTED

MAR 12 1986

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 5680-21

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

For Home Use:

Apply with a sprinkling can. To cover 50 sq. ft., add 16 fluid ounces to sprinkling can containing 2 1/2 gallons of water. When sprinkling can is empty, triple rinse and pour rinses on area just treated. Mix only quantity needed and use immediately. Do not store diluted solution. To minimize lateral movement, sprinkle in lightly with a watering can immediately after application.

Make application when air is calm to avoid the possibility of drift onto desirable plants or grass. Keep away from the roots of desirable plants. Use only in areas where complete control of all vegetation is desired. Power Kill Weed and Vegetation Killer should not be used on cultivated areas, on ground that is to be cultivated, in greenhouses, or near the drip line of trees or shrubs.

Do not use on slopes or in areas where runoff is likely to occur (apply only to level surfaces). Avoid using where adjacent desirable trees, shrubs, or plants may be injured from leaching of the chemical through the soil. Keep children and animals off treated areas until these areas are dry. Apply this product only as specified on this label.

For Industrial Use:

Dilute one gallon of Power Kill Weed and Vegetation Killer with 20 gallons of water or diesel to cover an area of 420 sq. ft.

Net Contents: 1 gallon

POWER KILL WEED and VEGETATION KILLER

**KEEP OUT OF REACH OF CHILDREN
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS**

For total vegetation control on certain areas around the home where no plant growth is desired, as specified in label directions.

WARNING

Causes eye irritation. Do not get in eyes. Avoid contact with skin or clothing. Harmful if swallowed, inhaled or absorbed through the skin. Do not contaminate food or feed.

Practical Treatment

In case of eye contact, wash with water for at least 15 minutes and seek medical attention. In case of skin contact, wash with plenty of soap and water. Get medical attention if eye or skin irritation persists. If ingested, do not induce vomiting. Drink milk, egg whites, or gelatin, if not available. Drink plenty of water. If inhaled, remove victim to fresh air.

Active Ingredients:

Prometon: 2, 4-bis (isopropylamino)
6-methoxy-s-triazine 2.50%

Inert Ingredients: 97.50%

TOTAL 100.00%

Contains Petroleum Distillates
— Physical or Chemical Hazards —

Do not use, pour, spill, or store near heat or open flame.

EPA Reg No. 5680-21 EPA Est: 5680-LA1

ONLY FOR SALE TO, USE AND STORAGE BY, SERVICE PERSONS.

NOTE TO PHYSICIAN: There is no specific antidote. If ingested, do not induce emesis and take care to avoid aspiration of stomach contents during gastric lavage. Give a saline laxative and supportive therapy.

ENVIRONMENT HAZARDS: This product is toxic to fish. Keep out of any body of water. Do not contaminate water used for irrigation or domestic purposes. Do not contaminate water by cleaning of equipment or disposal of wastes.

— APPLY THIS PRODUCT ONLY AS SPECIFIED ON THIS LABEL —

APPLICATION

Controls Johnsongrass, Bindweed, and other hard-to-kill weeds. Prevents plant growth for up to one year.

Power Kill Weed and Vegetation Killer is a nonselective product intended for use after dilution with water. For best results, apply to bare ground or when vegetation growth is just starting.

Vegetation taller than 4-6 inches should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep-rooted perennial weeds. Use for bare ground vegetation control in driveways, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings, and under gravelled pathways where plant growth has come through the surfaces.

STORAGE AND DISPOSAL

STORAGE:
Do not store near heat or an open flame.

DISPOSAL:
Metal containers (non-aerosol) — Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic containers — Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
