

DEC 24 1991

Mr. Robert L. McCollum
Shield Packaging Co., Inc.
P.O. Box 729
Webster, MA 01570

Dear Mr. McCollum:

Subject: Revised Labeling
Multi-Purpose Insect Killer
EPA Reg. No. 5693-46
Submission dated December 10, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

As new labels are prepared, the term "related compounds" should be deleted from the label ingredient declaration for tetramethrin. Unless otherwise substantiated, these isomers should be considered inert. If the "related compounds" are determined to be active, they should be incorporated in the declaration for the active ingredient and not distinguished as "related compounds" or "other isomers".

The sentence, "Do not spray in areas where food is processed or served" contradicts the precautionary statements, "Foods should be removed or . . . thoroughly cleaned before re-use". Correct your labeling accordingly to remove this contradiction.

Sincerely,

RFM

Richard F. Mountfort
Product Manager (10)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT/SHAKE BEFORE USE:

For best ing shake between sprays. Point valve away from face and press button. Exact spray to control pests when possible.

DISPOSAL AND STORAGE

Wrap container and dispose of in trash. Do not incinerate or puncture can.

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

FOR CONTROL OF PESTS ON ORNAMENTAL PLANTS

Spray plants with a slow sweeping motion so that mist drifts into plants. Use caution on new growth and tender foliage. Repeat as necessary. When using outdoors spray when air is still.

For control of aphids, two-spotted spider mites, beetles and adult white flies on ornamental house and greenhouse plants (African violet, aralia, Christmas cherry, chrysanthemum, Cineraria, dieffenbachia, fuchsia, gladiolus, ivy, lantana, Neanthe bella palm, petunia, rose and snap dragon and on outdoor plants azalea, chrysanthemum, euonymus, ivy, marigold, pelonia, rose, snap dragon and zinnia).

TREES AND SHRUBS:

GYPSY MOTHS, TENT CATERPILLARS also Canker Worms, Garden Webworm, Aphids, Spider Mites, and Adult White Flies on ornamental crabapples, cherries and plum trees. spray as above. Do not spray fruit bearing trees.

HORNETS-WASPS-YELLOW JACKETS

Kills Hornets, Wasps and Yellow Jackets nesting in ornamentals and trees and Shrubs, Rhododendrons, Yews, Laurels, etc. Best preferably in the evening when air is still.

PRECAUTIONARY STATEMENTS

HAZARDOUS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Do not spray in areas where food is processed or served. Do not use on or around animals. Cover or remove fish bowls for 1 hour.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before re-use. When using the product in these areas apply only when the facility is not in operation. Do not remain in treated areas. Ventilate the area after treatment is completed.

Apply this product only as specified on this label.

PHYSICAL OR CHEMICAL HAZARDS - STORAGE

Avoid breathing of vapor and skin contact. Avoid contact with eyes. In case of contact, flush with water. Do not smoke while spraying. Contents under pressure. Never set containers on stove or radiator or place where temperature will exceed 120°F.

ENVIRONMENTAL HAZARD

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters.
