CHACON DOG AND CAT REPELLENT  
PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

## CAUTION

Harmful if swallowed. Avoid breathing of spray mist. Avoid contact with skin. Avoid contamination of food and feed.

## ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate utensils or dishes.

## PHYSICAL OR CHEMICAL HAZARDS

**FLAMMABLE:** Contents under pressure. Keep away from heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting. Do not smoke while using this product.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label thoroughly.

**GENERAL:** For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up by disciplinary action. This repellent product should be used in conjunction with training.

**READY TO USE AEROSOL:** Do not spray product on plastic, asphalt tile, or finished furniture unless pretested. May stain finished surfaces if sprayed too closely. Hold container in upright position to spray. Point valve opening away from face when spraying.

**INDOOR USE:** To break your pet of undesirable habits (such as sleeping on furniture, rugs and other forbidden areas in your home). Spray the article or area involved lightly with this product until the object or area is slightly moistened. Repeat daily or as necessary until habit is broken.

**NOTE:** Before spraying extensive areas of rugs, fabrics or plastics, test the effect of this product by first treating a small inconspicuous area. This product may stain or soften some fabrics or plastics. An alternate method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected.

**OUTDOOR USE:** To prevent your pet or stray animals from soiling flower beds, areas of lawn, trees, shrubbery or evergreen. Spray the edge of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawns, lightly everyday, or every other day, with this product. Repeat until undesirable habit has been changed. Since animals are attracted to areas where urine or feces have been deposited, remove any droppings before spraying the spot with the masking odor. Do not apply directly to foliage of shrubs, ornamentals or soft bodied plants.

**NOTE:** This product is not likely to break the established urination patterns of dogs unless it is used as a training aid.

## STORAGE AND DISPOSAL

**Storage:** Store in a cool place away from heat or open flame. Keep out of reach of children.

**Disposal:** Replace cap, securely wrap in paper and discard container in trash. Do not incinerate or puncture.

**Notice:** Buyer assumes all risk of use, storage and handling of this material not in strict accordance with directions given herewith.
