

difficult to resuspend. Do not mix with wetting agents or spreading additives. For use as a spray, mix in a ratio of one part repellent to one part of water (for prolonged retention, 8 oz. of a latex type sticker may be added). Use undiluted as a brush or coating. For use against rabbits, meadow mice (*Microtus* spp.), chipmunks and deer to reduce their gnawing damage to shrubs, ornamentals, and dormant fruit trees. Do not apply to plant parts that will be eaten by humans or domestic animals. Apply only when foliage is dry.

Spray thoroughly or apply with a brush on all foliage, bark and twigs to be protected. Thoroughly cover area well above the reach of animals. It may be necessary to apply frequently to protect new growth.

To protect dormant trees, apply on twigs and trunks to a height of 5 feet following petal fall.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all risk of use, storage and handling of this material not in accordance with directions given herewith.
