Do not mix with soap or anionic detergents. Use only as directed.

KEEP OUT OF REACH OF CHILDREN

1/2 GINT BOLD CAPS

INSTRUCTIONS FOR USE

RESTAURANT, BAR, TAVERN, HOME, GENERAL SANITIZING:
 For sanitization of glasses, glassware, dishes, cooking utensils, sinks, stoves, refrigerators, etc., clean surfaces thoroughly with soap or detergents and rinse. Rinse again with SANITIZING SOLUTION made by mixing 1/2 (1/2 tablespoon) per gallon of water.

HOSPITALS, INSTITUTIONS, HOTELS, MOTELS, GENERAL DISINFECTING AND DEODORIZING:
 For disinfecting and deodorizing sickrooms, bathrooms, fixtures, kitchens, garbage cans, walls, floors, surfaces, etc. in hospitals, institutions, hotels, public rooms, homes, areas, conveyances, etc., clean surfaces thoroughly with detergent and rinse. Then rinse with DISINFECTING DEODORIZING SOLUTION made by mixing 1/4 OUNCE (1/2 tablespoons) per GALLON of water.

LAUNDRY SANITIZING AND DISINFECTING:
 To sanitize and disinfect sheets, pillow cases, aprons, bedclothes, diapers, etc., wash thoroughly with soap or detergent and rinse. Then soak or add to last rinse cycle. 4 OUNCES each 10 POUNDS OF CLOTH or 8 gallons of water.

DAIRY AND FOOD PROCESSING EQUIPMENT SANITIZING:
 To sanitize milking machines, milk cans, dishes, glass food processing equipment, etc., clean objects thoroughly with soap or detergent and rinse. Then rinse freely in a SANITIZING SOLUTION made by mixing 1/4 OUNCE (1/2 tablespoon) per ONE GALLON of water used. Flush with clean water.

ANIMAL PENS, CAGES, BARNES, ETC., DISINFECTING AND DEODORIZING:
 To sanitize, disinfect and deodorize animal and bird kennels, barns, walls, floors, feeding equipment, etc., wash thoroughly with soap and/or detergent and rinse. Then rinse in DISINFECTING AND DEODORIZING SOLUTION made by mixing 1/4 OUNCES (2 1/2 tablespoons) per GALLON of water used.

COMBS, BRUSHES, RAZORS, SCISSORS, RUBBER OBJECTS, DISINFECTING:
 Wash thoroughly with soap or detergent and rinse. Then soak in DISINFECTING SOLUTION made by mixing 1 OUNCE (2 tablespoons) per ONE QUART of water. Remove to dry.

INSTRUCTIONS FOR USE

RESTAURANT, BAR, TAVERN, HOME, GENERAL SANITIZING:

For sanitization of glasses, glassware, dishes, eating and cooking utensils, sinks, stoves, refrigerators, etc., clean objects and surfaces thoroughly with soap or detergents and rinse. Then rinse again with SANITIZING SOLUTION made by mixing 1/4 OUNCE (1/2 tablespoon) per gallon of water.

HOSPITALS, INSTITUTIONS, HOTELS, MOTELS, GENERAL DISINFECTING AND DEODORIZING:

For disinfecting and deodorizing sickrooms, bathrooms, bathroom fixtures, kitchens, garbage cans, walls, floors, surfaces, etc., as found in hospitals, institutions, hotels, public rooms, homes, industrial areas, conveyances, etc., clean surfaces thoroughly with soap or detergent and rinse. Then rinse with DISINFECTING AND DEODORIZING SOLUTION made by mixing 1 1/4 OUNCE (2 1/2 tablespoons) per GALLON of water.

LAUNDRY SANITIZING AND DISINFECTING:

To sanitize and disinfect sheets, pillow cases, aprons, uniforms, bedclothes, diapers, etc., wash thoroughly with soap or detergent and rinse. Then soak or add to last rinse cycle. 4 OUNCES for each 10 POUNDS OF CLOTH or 8 gallons of water.

DAIRY AND FOOD PROCESSING EQUIPMENT SANITIZATION:

To sanitize milking machines, milk cans, dishes, glasses, cutlery, food processing equipment, etc., clean objects thoroughly with soap or detergent and rinse. Then rinse freely in a SANITIZING SOLUTION made by mixing 1/4 OUNCE (1/2 tablespoon) per ONE GALLON of water used. Flush with clean potable water before reuse.

ANIMAL PENS, CAGES, BARN, ETC., DISINFECTING AND DEODORIZING:

To sanitize, disinfect and deodorize animal and bird cages, kennels, barns, walls, floors, feeding equipment, etc., wash thoroughly with soap and/or detergent and rinse. Then rinse with DISINFECTING AND DEODORIZING SOLUTION made by mixing 1 1/4 OUNCES (2 1/2 tablespoons) per GALLON water used.

COMBS, BRUSHES, RAZORS, SCISSORS, RUBBER OBJECTS, DISINFECTING:

Wash thoroughly with soap or detergent and rinse. Rinse again in DISINFECTING SOLUTION made by mixing 1 OUNCE (2 tablespoons) per ONE QUART of water. Remove immediately to dry.

General Directions

IN GENERAL, TO SANITIZE, DISINFECT OR DEODORIZE, FIRST, CLEAN OBJECTS OR SURFACES THOROUGHLY WITH SOAP OR DETERGENT AND RINSE. THEN RINSE AGAIN USING ONE OF THE FOLLOWING SOLUTIONS:

TO SANITIZE: After cleaning, rinse with sanitizing solution made by mixing 1/4 OUNCE (1/2 tablespoon) per GALLON of water. This gives a 200 ppm solution.

TO DISINFECT: After cleaning, rinse with disinfecting solution made by mixing 1/2 OUNCE (1 tablespoon) per GALLON of water. This gives a 400 ppm solution.

TO DEODORIZE: After cleaning, rinse with deodorizing solution made by mixing 1 1/4 OUNCES (2 1/2 tablespoons) per GALLON of water. This gives a 1000 ppm solution.

TO SANITIZE, DISINFECT AND DEODORIZE: After cleaning, rinse with solution made by mixing 1 1/4 OUNCES (2 1/2 tablespoons) per GALLON of water. This gives a 1000 ppm solution.
