

AQUA-10

Concentrated Swimming Pool Algaecide

CONTROLS ALGAE SLIMES

Keeps Pool Water Clear and Free of Visible Algae.

INSTRUCTIONS FOR USE

INITIAL DOSE: One GALLON of AQUA-10 for each 50,000 gallons of pool water.

FOR REGULAR MAINTENANCE: One QUART of AQUA-10 for each 50,000 gallons of pool water every 3 to 5 days.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of AQUA-10 for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of AQUA-10 to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

CONCENTRATED SWIMMING POOL ALGAECIDE

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)
dimethyl benzyl ammonium chlorides 5%
n-Alkyl (68% C₁₂, 32% C₁₄)
dimethyl ethylbenzyl ammonium
chlorides 5%

INERT INGREDIENTS: 90%
100%

DANGER

KEEP OUT OF REACH OF CHILDREN

CORROSIVE. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

See other warnings on side panel.

CONTENTS: ONE GALLON

EPA Reg. No. 5725-23

When AQUA-10 is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngbya versicolor* (blue-green) and other swimming pool algae.

AQUA-10 is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treatment chemicals. AQUA-10 works best when added / itself directly to pool water. AQUA-10 at use dilution is non-corrosive to inanimate surfaces.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

FISH AND/OR WILDLIFE PRECAUTIONS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.

Rinse empty container thoroughly with water and discard.
