PRODUCT NO. 01833

KEEP OUT OF REACH OF CHILDREN

CAUTION:

Harmful if swallowed. Avoid contact with skin and eyes. May cause eye and skin irritation. If contents come in contact with eyes, flush with water for 15 minutes and get medical attention. Do not mix with soap or alkaline materials.

Rinse empty container thoroughly with water and discard it.

GENERAL DESCRIPTION:

DuSAN is a liquid, mildly acidic, nonfoaming iodophor. It is scientifically blended to give quick, positive wetting, yet rapid "drain-off". It is equally effective in hot or cold, hard or soft water. DuSAN has potent sanitizing properties without the need of heat because of its high content of bacteriologically active iodine. DuSAN is phosphate free.

USING DIRECTIONS:

DuSAN is authorized for final spray or soak sanitizing rinsing of utensils and equipment in dairies and/or dairy farms under Section 7, Items 11r and 14r, Grade "A" Pasteurized Milk Ordinance (1978). Use one (1) ounce of DuSAN per 5 gallons of water (25 ppm titratable iodine) for these usages.

DuSAN may be sprayed at 10 ppm titratable iodine for sanitizing bells on filling machines and crowns on capping machines in brewery and soft drink operations. Use two (2) ounces of DuSAN to 25 gallons of cold water for 10 ppm titratable iodine.

Use one (1) ounce of DuSAN for 5 gallons of water (25 ppm titratable iodine) for final sanitizing of bottles and all other utensils and equipment in breweries and soft drink plants, by spraying or soaking.

1 1/2 to 25 ppm available iodine for sanitizing is acceptable to health officials as the equivalent in bactericidal effect of 100 and 200 ppm available Chlorine.

DuSAN

LOW FOAM IODOPHOR

U.S. Patent 3,028,299

ACTIVE INGREDIENTS:

Butoxy polypropoxy polyethoxy ethanol-iodine complex 12.47%
Polyethoxy polypropoxy polyethoxy ethanol-iodine complex
(providing 1.6% titratable iodine) 0.37%

INERT INGREDIENTS:

..... 87.16%
Total 100.00%

THIS PRODUCT DOES NOT CONTAIN PHOSPHORUS.

DuSAN is a low foam iodophor authorized under 178.1010 Sanitizing Solutions, FDA Food Additives, authorized by USDA for use in federally inspected and poultry processing plants, for final sanitizing.

One ounce of DuSAN per 5 gallons of water (25 ppm titratable iodine) is authorized for final sanitizing of previously cleaned and rinsed food contact equipment in all types of food plants, meat plants, dairies, dairy farms, brewery and soft drink restaurants, hospitals and nursing homes. To be a spray or soak.

For Sanitizing Utensils and Glasses in Hair Operations:

1. Scrape and prewash utensils and glasses possible.
2. Wash with a DuBois detergent.
3. Rinse with clean water.
4. Sanitize in a solution of 1/4 oz. to one gallon water (25 ppm titratable iodine). Immerse for at least 2 minutes or for contact time by governing sanitary code.
5. Place sanitized utensils on a rack or drain dry.

NOTE: A clean, potable water rinse following sanitizing is not permitted under Section H 96.16 (2) (c) of the Wisconsin Administrative Code.

Approved under the regulations of the Wisconsin Board of Health.
