roughly with water

### USE DIRECTIONS

**FOR CLEANING:** Lightly soiled areas -- surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of HFC-5B per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas -- mop or brush soiled surface with a solution containing 2-3 ounces of HFC-5B per gallon of water. Rinse cleaned surface with fresh water.

**GENERAL PURPOSE DISINFECTION:** To disinfect walls, floors, and other hard surfaces in homes, schools, restrooms, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1 ounce of HFC-5B per gallon of water. Surfaces that are heavily soiled should be cleaned with 1 1/2 ounces of HFC-5B per gallon of water and then disinfected. These surfaces which may later come in contact with feet must be rinsed with clean water or drinking water.

To disinfect toilet bowls, use 1/2 ounce of HFC-5B per gallon of water. To disinfect toilet seats, use 1/4 ounce of HFC-5B per gallon of water. To disinfect water closets, use 1/2 ounce of HFC-5B per gallon of water.

**HOSPITAL DISINFECTION:** To disinfect hospital floors, mop with a solution containing 1/2 ounce of HFC-5B per gallon of water. To disinfect hospital walls, brush with a solution containing 1/2 ounce of HFC-5B per gallon of water.

### DANGER

**KEEP OUT OF REACH OF CHILDREN**

**Corrosive.** Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**First Aid:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
