# CITRU QUAT-3 DISINFECTANT-CLEANER SANITIZER-FUNGICIDE DEODORANT

## ACTIVE INGREDIENTS

Quaternary Ammonium Compound  
Dodecyl Benzyl Ammonium Chloride 50%  
Glycolic Acid 5%

Tetra Isopropyl Ethoxylated Tetraethoxy A-3

A Surface Active Agent, Anionic Surfactant

Surfactant, Detergent, Emulsifier

Deodorant, Odor Neutralizer

This product does not contain formaldehyde.

EPA REGISTRATION NO. 5736-44 AA • EPA EST. NO. 5736 NJ 1

## USE DIRECTIONS

FOR CLEANING: Use a soft cloth or sponge to dampen the surface to be cleaned. Apply the cleaner to the surface. Let stand for 10 minutes. Rinse with warm water. Dry with a clean cloth. If necessary, repeat the process.

For General Purpose Disinfection: Use a soft cloth or sponge to dampen the surface to be cleaned. Apply the cleaner to the surface. Let stand for 10 minutes. Rinse with warm water. Dry with a clean cloth. If necessary, repeat the process.

GENERAL PURPOSE DISINFECTION: To disinfect walls, floors, furniture and other hard surfaces, apply the cleaner to the surface to be treated with a solution containing 2 ounces per gallon of water. These surfaces are heavily soiled with fecal material or excretates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, spray area with a solution containing 24 ounces in 1 gallon of water. This solution will destroy Trichophyton interdigitale, a causal agent of athlete's foot.

**HOSPITAL DISINFECTION:** To disinfect walls, floors, furniture and other hard surfaces, apply the cleaner to the surface to be treated with a solution containing 2 ounces of cleaner per gallon of water.

These surfaces usually are heavily soiled with fecal material or excretates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

**SANITIZATION:** To sanitize walls, floors, and equipment in food processing plants, food handling facilities, restaurants, food service establishments, etc., apply the cleaner to the surface to be treated with a rate of 2 ounces per gallon to insure thorough cleaning. To disinfect food contact surfaces with a solution containing 2 ounces of cleaner per gallon of water. No rinsing is required after sanitizing. Treated food contact surfaces must be rinsed with a solution containing 2 ounces per gallon of water prior to use.

**DEODORIZATION:** To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 24 ounces of cleaner per gallon of water. This cleaner is an effective ammonia cleaner designed for both household and industrial applications. When used as directed, it will effectively clean hard surfaces such as tile, vinyl, linoleum, wood, plastic, formica, etc. It may be applied on the floor, ceiling, walls, counter tops, fixtures, furniture, etc. It may be used as a general purpose cleaner for all types of surfaces. It is also effective for removing odors from carpets, upholstery, and other areas where odors are present.

## KEEP OUT OF REACH OF CHILDREN

## DANGER:

**CORROSIVE:** Causes severe burns to skin and eyes. Do not get in eyes or on skin. If contact occurs, flush immediately with large amounts of water. If eye irritation persists, seek medical attention.

**FIRST AID:** If in eyes: Immediately flush with large amounts of water for at least 15 minutes. If irritation continues, seek medical attention.

If on skin: Immediately flush with large amounts of water for at least 15 minutes. If irritation continues, seek medical attention.

**NOTE TO PHYSICIAN:** If swallowed, do not induce vomiting. Call physician. Do not give anything by mouth. If breathing difficulty develops, seek medical attention.

## RESEARCH LABORATORY/TECHNICAL DATA

### DUBOIS CITY QUAT-3

Quaternary Germicidal Cleaner

Disinfectant - Cleaner - Sanitizer - Fungicide - Deodorant

GENERAL  
DESCRIPTION:

DuBois [REDACTED] is a nonionic synthetic detergent containing a quaternary germicide and compounded without phosphates. This balanced formula combines the effective cleaning power of a synthetic detergent with the sanitizing action of a quaternary. It was designed for one step sanitizing, deodorizing, and cleaning of floor, walls, ceilings, equipment - any washable surface. [REDACTED] is colorless and has a mild lemon scent in the using dilution. It is a versatile concentrate and can be used to handle such diverse jobs as stripping floor finishes and general cleaning depending upon the dilution chosen.

PROPERTIES:

pH (1% solution)	11.1
Foam	Moderate
Wetting and Emulsification	Rapid
Rinsing	Excellent
1 liquid ounce/gallon water	390 ppm Quaternary
EPA Registration Number	5736-44-AA
Biodegradable	Yes, all surfactants.

METAL SAFETY:

Safe on stainless steel, iron, glass, copper, plastic, enamel paints, epoxy paints, vinyl and rubber floor tiles. Avoid prolonged soaking of aluminum, brass and galvanize to avoid tarnishing or change in appearance.

RECOMMENDED  
USING PROCEDURES:

FOR CLEANING

Lightly soiled areas - surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of [REDACTED] per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas - mop or brush soiled surface with a solution containing 2-3 ounces of [REDACTED] per gallon of water. Rinse cleaned surface with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1 ounce of [REDACTED] per gallon of water. Surfaces that are heavily soiled should be cleaned with 1-2 ounces of [REDACTED] per gallon water and then disinfected. After a contact time of 10 minutes those surfaces which may later come in contact with food must be rinsed with clean water of drinking quality.

(Continued)

**RECOMMENDED  
USING PROCEDURES:**

To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing 3/4 ounces in 1 gallon water. This solution will destroy Trichophyton interdigitale, a causative agent of athlete's foot.

**HOSPITAL DISINFECTION**

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2 ounces of ~~██████████~~ per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection. Allow a contact time of 10 minutes.

**SANITIZATION**

To sanitize walls, floors and equipment in food processing plants, first clean thoroughly with a solution containing 3/4 ounce of ~~██████████~~ per gallon of water. If surface is heavily soiled, use ~~██████████~~ at a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 1/2 ounce of ~~██████████~~ per gallon of water. No rinse required after sanitization. Treated food contact surfaces must be rinsed with potable water prior to reuse.

**DEODORIZER**

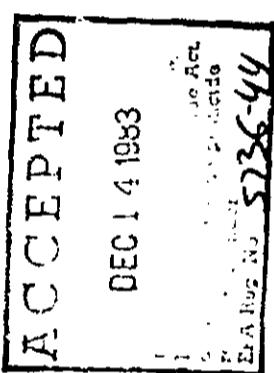

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of ~~██████████~~ per gallon of water.

This is an effective antibacterial cleaner designed for use in household, institutional and institutional cleaning. When used as directed, ~~██████████~~ will disinfect hard surfaces such as tile, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used as a general purpose antibacterial-antifungal detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, food processing plants and in other places where efficient cleaning and antimicrobial action is desired.

**PACKAGING:**

4-1 gallon bottles per case.  
Do not mix with soap or anionic detergents.  
Rinse container and discard it.

CAUTIONS:

DANGER. KEEP OUT OF REACH OF CHILDREN.  
Corrosive, causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

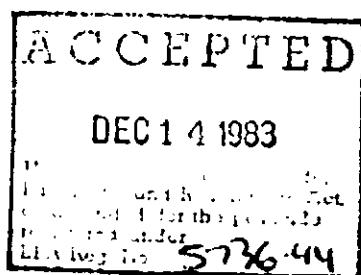

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg white, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probably mucosal damage may contraindicate the use of gastric lavage. Measure against circulatory shock, respiratory depression and convulsion may be needed.
