

**Precautionary Statements  
Hazards to Humans and Domestic Animals**

Keep Out of Reach of Children

**DANGER: ACIDIC**

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**ENVIRONMENTAL HAZARDS** - This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with NPDES permit. For guidance contact your Regional Office of the EPA.

**PHYSICAL HAZARDS** - Do not use, pour, spill or store near heat or open flame.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Pesticide spray mixture or rinsate that cannot be used or chemically processed should be disposed in a landfill approved for pesticides or buried in a safe place away from water supplies.

**Metal Drum** - reseal container and offer for reconditioning or triple rinse or equivalent, and offer for recycling, reconditioning or disposal in approved landfill or bury in a safe place. Consult Federal, state or local disposal authorities for approved alternate procedures.

**Plastic Pail** - triple rinse or equivalent, and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place. Consult Federal, state or local disposal authorities for approved alternate procedures, such as limited open burning.

**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Mix PRO KLEEN with water, preferably 90 to 120 F, at 1:30 to 1:40 and stir until it is in solution. The product is immediately ready to be foamed. The

KEEP OUT OF REACH OF CHILDREN

### DANGER

**Statement of Practical Treatment:**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

For additional instructions see PRO KLEEN Technical Data Sheet

foam produced with the Foamall Units at 60 psig is of good volume and clings well. Allow the foam to remain on the surface to be cleaned until the soil is loosened. Then rinse well with a strong impingement water spray.

PRO KLEEN should be foamed at a 1:30 to 1:40 dilution. At this level it is an effective hard water and protein scale remover. Lesser concentrations can be used for lighter soil and stronger concentrations for heavier soils.

**USING PROCEDURE FOR SANITIZING**

PRO KLEEN is an effective acid sanitizer. Use 1 part PRO KLEEN to 200 parts water. 2 1/2 ounces 4 gallons of water for final acid sanitizing on food contact surfaces.

**1. Dairy Farms** - For cleaning bulk tanks, utensils, cans, separators, strainers, pails, and milking machines.

**2. Dairy and Food Processing Plants** - For cleaning transport tank trucks, storage tanks, and other equipment.

**3. Carbonated Beverage Industry** - For cleaning pre-mix vending units.

**4. Food Service Industry** - For cleaning food serving equipment, glasses, dishes, utensils, pots, and pans.

**5. Meat and Poultry Plants** - For cleaning all meat and poultry contact surfaces such as belts, cutting tables, and other utensils and equipment.

Surfaces should be previously cleaned and rinsed with potable water before applying final sanitizing rinse. PRO KLEEN is effective for sanitizing in hard water up to 30 grain water hardness. This sanitizing solution can be applied by immersion, flooding or spraying. Let stand for a minimum of 10 minutes. If frozen, thaw and mix to make usable.

Consult your DuBois representative for advice regarding specific site problems.

All surfactants used in this product are biodegradable.

This product averages 17.0% phosphorus in the form of phosphates, which is equal to 4.7 grams per pound of product.
