

Precautionary Statements

Hazards to Humans and Domestic Animals
KEEP OUT OF THE REACH OF CHILDREN
DANGER: ACIDIC

Corrosion—causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.
ENVIRONMENTAL HAZARDS—This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with NPDES permit. For guidance contact your Regional Office of the EPA.

PHYSICAL HAZARDS—Do not use near soil or store near heat or open flame.

STORAGE AND DISPOSAL—Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

Pesticide—spray mixture or residue that cannot be used or chemically processed should be disposed in a landfill approved for pesticides or buried in a safe place away from water supplies.

Metal Drum—re-seal container and offer for recycling, reconditioning or disposal in approved land fill or bury in a safe place. Consult Federal, state or local disposal authorities for approved alternate procedures.

Plastic Pail—thoroughly rinse for equivalent and dispose in an incinerator or landfill approved for pesticide containers or bury in a safe place. Consult Federal, state or local disposal authorities for approved alternate procedures such as incineration, open burning.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Mix PRO KLEEN with water (preferably 90 to 120°F.) at 1.30 to 1.40 and stir until it is in solution. The product is immediately ready to be foamed. The foam produced with the Foamal Units at 60 psig is of good volume and clings well. Allow the foam to remain on the surface to be cleaned until the suds are loosened. Then rinse well with a strong, non-chlorinated water spray.

PROD. NO. 03361

PRO KLEEN

SELF-FOAMING ACIDIC CLEANER/DESCALER

ACTIVE INGREDIENTS:			
Phosphoric acid	54.0	68.5%	
Isopropyl alcohol	10.0		
Dodecylbenzene sulfonic acid	4.5		
INERT INGREDIENTS		31.5%	
		100.0%	

KEEP OUT OF REACH OF CHILDREN
DANGER

Statement of Practical Treatment:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

For additional instructions see PROKLEEN Technical Data Sheet

PRO KLEEN should be foamed at 1.30 to 1.40 dilution. At this level it is an effective hard water and protein scale remover. Lesser concentrations can be used for lighter soil and storage concentrations for heavier soils.

DO NOT MIX WITH PRODUCTS CONTAINING CHLORINE OR OTHER CHEMICAL PRODUCTS.

USING PROCEDURE FOR SANITIZING—PRO KLEEN is an effective acid sanitizer. Use 1 part PRO KLEEN to 200 parts water (2 1/2 ounce / 1 gallon of water for final acid sanitizing on food contact surfaces).

- 1. Dairy Farms**—For cleaning bulk tanks, udders, cans, separators, strainers, pans, and milking machines.
- 2. Dairy and Food Processing Plants**—For cleaning transport tanks, trucks, storage tanks, and other equipment.
- 3. Carbonated Beverage Industry**—For cleaning mix, vending units.
- 4. Food Service Industry**—For cleaning food serving equipment, glasses, dishes, utensils, pans, and pans.
- 5. Meat and Poultry Plants**—For cleaning all meat and poultry contact surfaces such as belts, cutting tables, and other utensils and equipment.

Surfaces should be previously cleaned and rinsed with potable water before applying final sanitizing rinse. PRO KLEEN is effective for sanitizing in hard water up to 30 grain water hardness. This sanitizing solution can be applied by immersion, flooding, or spraying. Let stand for a minimum of 10 minutes.

MICROBIOLOGICAL DATA

METHOD: Germicidal and Decontaminating Action of Disinfectants, A.C.C.A., 24th Ed., 1964, pp. 78-79.

RESULTS: Dubois PRO KLEEN Sanitizer at 1:200 (2 1/2 ounces/4 gallons water) reduced bacterial numbers by 99.99% when tested by this method with a 60 second contact time in 513 ppm hard water. The organisms used in these tests were *Escherichia coli* ATCC No. 12229, *Staphylococcus aureus* ATCC No. 6538 and *Listeria monocytogenes* ATCC No. 15313. Copies of the test data are available on request.

If frozen, thaw and mix to make usable.

Consult your Dubois representative for advice regarding specific site problems.

All surfactants used in this product are registered with the appropriate agencies. The product contains no phosphates which would contribute to the problem of phosphate pollution.
