

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Antimicrobials Division (7510P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

5741-37

Date of Issuance:

7/10/24

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Profect HP Concentrate

Name and Address of Registrant (include ZIP Code):

Jennifer Eck
Spartan Chemical Company, Inc.
Electronic Transmittal: jeck@spartanchemical.com

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Steven Snyderman, Product Manager 33
Regulatory Management Branch II
Antimicrobials Division (7510M)
Office of Pesticide Programs

Date:

7/10/24

2. You are required to comply with the data requirements described in the DCI identified below:

a. Hydrogen Peroxide: GDCI-000595-1127

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Reevaluation Team Leader (Team 36): <http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

4. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, "EPA Reg. No. 5741-37."

5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated: 04/11/2023
- Alternate CSF 1 dated: 04/11/2023

If you have any questions, please contact Linda Amar by phone at 202-566-0424, or via email at amar.linda@epa.gov.

Enclosure: Stamped Approved Label

Profect™ HP Concentrate

FRONT PANEL

ACTIVE INGREDIENTS:

Hydrogen Peroxide..... 6.80%

INERT INGREDIENTS: 93.20%

TOTAL:100.00%

ACCEPTED

07/10/2024

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No.

5741-37

E.P.A. Reg. No. 5741-GT

E.P.A. Est. No. 5741-OH-1

Keep Out of Reach of Children

DANGER

See (side) (back) panel for additional precautionary statements

(**Note to Reviewer:** In accordance with 40 CFR 156.68(d), all first aid statements, as prescribed, will appear on the front panel of the product label)

FIRST AID	
If in eyes:	<ul style="list-style-type: none">- Hold eye open and rinse slowly and gently with water for 15-20 minutes.- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.- Call a poison control center or doctor for treatment advice.
If on skin or clothing:	<ul style="list-style-type: none">-Take off contaminated clothing.-Rinse skin immediately with plenty of water for 15-20 minutes.-Call a poison control center or doctor for treatment advice.
If swallowed:	<ul style="list-style-type: none">-Call a poison control center or doctor immediately for treatment advice.-Have person sip a glass of water if able to swallow.-Do not induce vomiting unless told to do so by a poison control center or doctor.-Do not give anything by mouth to an unconscious person.
Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.	
24 HOUR MEDICAL EMERGENCY NUMBER: 888- 314-6171	
Have the product container or label with you when calling a poison control center or doctor or going for treatment.	

FRONT, BACK, OR SIDE PANEL:

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear protective eyewear. Wear long-sleeved shirt, long pants, socks and shoes, and chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

(NOTE TO EPA -The following text will be used on five-gallon pails and larger containers only)

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Hydrogen Peroxide based Disinfectant

Simplifill® XX

Clean on the Go® XX

(Note to EPA: the following marketing claims are optional)

- Kills bacteria, enveloped⁵ and non-enveloped⁶ viruses
- Offers broad spectrum kill in one product.²
- For use as a one-step general, (healthcare) disinfectant, virucide*, deodorizer, and cleaner on hard, inanimate nonporous environmental surfaces.³
- 1 Minute bactericidal and virucidal*
- Effective Against Antibiotic-Resistant Bacteria**
- [Product Name] is a (one-step) healthcare disinfectant that delivers effective performance against {insert pathogen(s) from efficacy table} (when the use directions for disinfection are followed or ³).
- Use [Product Name] daily as part of a simple and effective cleaning and disinfection program for your entire facility on hard, non-porous surfaces.
- [Product name] is a hydrogen peroxide formulation designed to provide effective cleaning, deodorizing, and disinfection for [insert use site(s) from table].³
- Use [Product Name] for all your one-step disinfecting, deodorizing, and cleaning needs.³
- (This Product or Product Name) Disinfects, cleans, and deodorizes in one labor-saving step.³
- Kills bacteria and viruses* in 60 seconds.⁷
- Kills Norovirus in (1 minute) (60 seconds)
- Kills Feline Calicivirus in (1 minute) (60 seconds) and Canine Parvovirus in 3 minutes!
- (One or 1) minute contact time ensures efficacy and compliance with proper disinfection and housekeeping practices.⁷
- Broad spectrum kill.²
- One-step cleaner, viricidal* disinfectant.³
- Deodorizes by killing microorganisms that cause offensive odors.
- Effective against a broad spectrum of bacteria (such as {insert bacteria from efficacy table})
- Meets the surface disinfection recommendations of OSHA bloodborne pathogen standard for HIV, HBV, and HCV.
- We make clean simple®
- Simplifill™ Dispensing Made Simple®
- Can be used on {insert types of surface(s) from table} in {insert use sites(s) from table}
- Effective disinfection on high touch surfaces²
- Disinfects high touch surfaces² in (60 seconds) (1 minute)⁷
- Disinfects critical touch surfaces² in (60 seconds) (1 minute)⁷
- (One or 1) minute contact times for your most critical disinfection needs^{2,7}
- Economical to use at a 1:64 (or 2 fl. oz. per gallon) dilution.⁷
- Simply dilute (product name or Profect HP Concentrate) at 2 fl. oz. per gallon to deliver an economical disinfection solution.⁷
- 1 gallon of Profect HP Concentrate (or product name) makes 64 gallons of ready to use solution (or equivalent conversion)
- Economical concentrate
- (At 2 fl. oz. per gallon) (product name) economically disinfects and deodorizes.⁽⁷⁾
- Cost effective concentrated hydrogen peroxide-based disinfectant.
- Economical to use – dilute at (2.0 or 2) fluid ounces per gallon of water.⁷
- Leaves the area clean and disinfected^{2,3}.
- Cleaner
- Deodorizer
- Disinfectant
- Virucide*

Bracketed information is denoted as: [required qualifier], (optional text), {insert as noted}.

The term “this product” used throughout this document may be replaced with the marketed product brand name.

Punctuation and plural or singular word forms may be adjusted to allow for grammatical correctness.

- Virucidal*
- Bactericidal
- All Purpose Cleaner
- Eliminates Odors
- Cleans and Deodorizes in One Step
- Cuts (Tough) Grease and Grime (without Scrubbing)
- Kills 99.9% of Germs[†]
- Kills 99.9% of Bacteria
- Kills 99.9% of Household Bacteria⁴
- Kills H1N1 Influenza A Virus (formerly called swine flu)
- Kills H1N1 Influenza A Virus.
- EFFICACY TESTS HAVE DEMONSTRATED THAT (THIS PRODUCT or PRODUCT NAME) IS AN EFFECTIVE BACTERICIDE AND VIRUCIDE* IN THE PRESENCE OF ORGANIC SOIL (5% BLOOD SERUM).³
- (Clean) (and) (Disinfect) after spills(!)²
- (This product) (Product name) is (designed) (formulated) for use (in/with) (refillable spray bottle) (mechanical spray device) (cordless) (backpack) (handheld) (sprayer) (low-pressure sprayer) (trigger sprayer) (handheld mechanical sprayer) (or insert specific applicator/sprayer name)].
- An effective (cleaner and disinfectant) (standardized cleaning and disinfecting procedure) following a spill [(involving bodily fluids) OR (of bodily fluids)]²
- (Helps) (employees) (staff) involved (with) (in) the cleanup of (spills) (spills containing potentially infectious material) [(involving bodily fluids) OR (of bodily fluids)]
- (Can be used to) (Helps) (employers) (institutions) meet surface disinfection recommendations from OSHA's bloodborne pathogen standard.
- For hard, non-porous plastic and painted surfaces, spot test on an inconspicuous area before use.
- For best (cleaning) (disinfection) results, always test a small inconspicuous area first.
- Cost effective and time efficient when used with (the) (refillable spray bottle) (mechanical spray device) (cordless) (backpack) (sprayer) (low pressure sprayer) (trigger sprayer) (handheld mechanical sprayer) (applicator/sprayer name).
- (This product) (Product name) is (designed) (formulated) for use with (refillable spray bottle) (mechanical spray device) (cordless) (backpack) (handheld) (sprayer) (low pressure sprayer) (trigger sprayer) (handheld mechanical sprayer) (applicator/sprayer name).
- (Refer to (applicator) (sprayer) (equipment) (user) manual for (additional) (specific) operation instruction before use.
- Refer to the *insert applicator/sprayer name* -and/or- user manual -or- safety data sheet (SDS) for (more information) (any additional PPE).
- See (online) (service) (instruction) manual (insert) for (more) (detailed) (usage) information. The most restrictive (label language or instructions or language or statements) will apply.
- (This product) (Product name) is a one-step (hospital-use) germicidal[†] (disinfectant) cleaner and deodorant (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting (deodorizing) (of) hard, non-porous inanimate surfaces.³ Quickly removes dirt, grime, food residue, blood and other organic matter commonly found in hospitals (in health care facilities) (on medical surfaces). It (also) eliminates odors leaving (restroom) surfaces smelling clean and fresh.
- Use where odors are a problem.
- Highly compatible formula for most surfaces
- Good for most indoor cleaning tasks
- Featuring a fresh floral fragrance
- Featuring a green apple fragrance
- Fragrance Free Formula (Unscented)

Bracketed information is denoted as: [required qualifier], (optional text), {insert as noted}.

Punctuation and plural or singular word forms may be adjusted to allow for grammatical correctness.

- (Effective against) (Disinfects) (Kills) (99.9%) SARS-CoV-2²
- (Effective against) (Disinfects) (Kills) (99.9%) SARS-CoV-2², the cause of COVID-19
- (Kills) (Eliminates) 99.9% - SARS-CoV-2² (USA-WA1/2020) (causative agent of COVID-19) (the virus that causes COVID-19)
- Disinfects surfaces by killing (99.9%) SARS-CoV-2 (USA-WA1/2020) (in One step)²
- Kills (99.9% of) SARS-CoV-2² virus, which causes COVID-19
- (Kills) (Effective against) the virus that causes COVID-19^{1,2}
- (This Product) (Product Name) kills SARS-CoV-2² the virus that causes COVID-19
- (This Product) (Product Name) kills SARS-CoV-2² virus.
- (This Product) (Product Name) kills (99.9% of) the virus that causes COVID-19^{1,2}
- (This Product) (Product Name) kills SARS-CoV-2² in (just) (60 seconds)
- (This Product) (Product Name) kills SARS-CoV-2² the virus that causes COVID-19 in (just) 60 seconds.
- (This Product) (Product Name) has demonstrated effectiveness against (SARS-CoV-2) (SARS-CoV-2 the virus that causes COVID-19) on hard, nonporous surfaces.
- (This Product) (Product Name) kills (SARS-CoV-2) the virus that causes COVID-19 in just one step(!)³ on hard, nonporous surfaces.
- (This Product) (Product Name) kills (SARS-CoV-2) (the virus that causes COVID-19) in one step(!)^{2,3}
- (This Product) (Product Name) kills (SARS-CoV-2) (the virus that causes COVID-19) in one step(!)³ on hard, nonporous surfaces.
- (This Product) (Product Name) kills (insert pathogen(s) from Efficacy Table) (.) (!)
- (This product) (can be used to pre-clean and disinfect² (healthcare) items (such as): (select from use sites and types of surfaces tables) (where disinfection is required). (A potable water rinse is required when disinfecting food contact surfaces.)
- When used as directed, this product (or product name) is effective against a wide variety of pathogenic microorganisms (including bacteria and viruses or select pathogens from Efficacy table).
- One minute contact times ensure efficacy and compliance for your most critical disinfection needs.^{2,3,7}
- This product (or Profect HP Concentrate) can be used in multiple areas including {insert use sites from table} (and either (on {insert types of surfaces from table}) or (and is compatible with most hard, non-porous surfaces)).^{2,3}
- [This product or product name] is a hydrogen peroxide based, hospital disinfectant that can be used as a Bactericide and Virucide* at 2 fluid ounces per gallon (or equivalent use dilution) of 400 ppm hard water (as CaCO₃) in the presence of organic soil (5% blood serum).
- [This product or product name] is a one-step³ hydrogen peroxide (based) disinfectant that is effective against gram-negative and gram-positive bacteria, drug resistant bacteria (including MRSA, MDR *Enterococcus faecium*, and MDR *Klebsiella pneumoniae*), and is virucidal* (including HIV-1, HBV, HCV, Influenza A Virus, and Influenza B Virus) when used as directed on hard, non-porous surfaces.
- When used as directed, [this product or product name] is a one-step³ disinfectant cleaner and deodorant (or odor-counteractant, or odor neutralizer) designed for general cleaning, (and) disinfecting (and deodorizing) hard, nonporous surface. Quickly removes dirt, grime, food residue, blood and other organic matter commonly found in (or on) [insert use site(s)]. It (also) eliminated odors leaving (restroom(s) or bathroom(s)) surfaces smelling clean and fresh. Use where odors are a problem.
- [Product name] is for use in healthcare facilities as a hard, non-porous surface disinfectant that delivers effective performance. When used as directed, [Product name] leaves the room clean and disinfected! [Product name or this product] economically disinfects and deodorizes.

Bracketed information is denoted as: [required qualifier], (optional text), {insert as noted}.

The term "this product" used throughout this document may be replaced with the marketed product brand name.

Punctuation and plural or singular word forms may be adjusted to allow for grammatical correctness.

- Proven effective against Norovirus and Canine Parvovirus
- Parvocidal against canine parvovirus
- Simplify your disinfection protocol by using one product for all of your bactericidal and virucidal* needs.
- Hospital one-step cleaner, bactericidal and virucidal* disinfectant
- Use Profect HP Concentrate daily as part of a simple and effective cleaning and disinfection program for your entire facility on hard, non-porous surfaces. Featuring patented hydrogen peroxide technology, Profect HP Concentrate ensure efficacy and compliance for your most critical disinfection needs.³ Ideal for repeated use on high-touch surfaces, Profect HP Concentrate offers economical disinfection and sanitization at 2 fl. oz. per gallon.⁷
- Kills Norovirus [in 60 seconds]!
- Disinfects against most common healthcare associated pathogens⁴ [in one minute] as a dilutable concentrate.
- Can be used on most common hard, non-porous healthcare surfaces².
- To be used in disinfecting of hard, non-porous non-food contact surfaces and non-critical equipment which may harbor or spread germs[†].
- (Uses) (Harnesses) the cleaning power of hydrogen peroxide.

(Claim Qualifiers)

¹SARS-CoV-2

²On hard, non-porous surfaces

³When the use-directions for disinfection are followed.

⁴*Pseudomonas aeruginosa, Salmonella enterica, Staphylococcus aureus*

⁵Human Coronavirus, Influenza B Virus, and SARS-CoV-2

⁶Feline Calicivirus, Rhinovirus Type 37, and Human Rotavirus

⁷Excludes Canine Parvovirus, which requires a 4 fl. oz./gal dilution and a 3-minute contact time. **(Note to EPA: This qualifier will only be used if Canine Parvovirus is present on the final printed label)**

**Methicillin Resistant *Staphylococcus aureus* – MRSA

[†] *Pseudomonas aeruginosa, Staphylococcus aureus, Influenza A Virus, and Influenza B Virus*

(Note to EPA: the following graphics are optional)

(Note to EPA: the “3-minute contact for Canine Parvovirus” statement will only be used if Canine Parvovirus is present on the final printed label)

EMERGING VIRAL PATHOGENS:

Product Name – or - this product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

Product Name – or - this product meets the criteria to makes claims against certain emerging viral pathogens from the following viral category:

- Enveloped virus
- Large, non-enveloped virus
- Small, non-enveloped virus

For an emerging viral pathogen that is a/an:	...follow the direction for use for the following organisms on the label:
Enveloped virus	Norovirus (Feline Calicivirus) Rhinovirus type 37
Large, non-enveloped virus	Norovirus (Feline Calicivirus) Rhinovirus type 37
Small, non-enveloped virus	Norovirus (Feline Calicivirus) Rhinovirus type 37

[**Product Name**] has demonstrated effectiveness against viruses similar to [**name of emerging virus**] on hard non-porous surfaces. Therefore, this product can be used against [**name of emerging virus**] when used in accordance with the directions for use against [**name of supporting virus**] on hard, non-porous surfaces. Refer to the [**CDC or OIE**] website at [**website address**] for additional information.

Efficacy Table:

BACTERICIDAL ACTIVITY (BACTERIA): (Using AOAC test methods (under Good Laboratory Practices, [GLPs], in the presence of 5% blood serum, when diluted at 2 fl. oz./gal, and a 1-minute contact time, unless otherwise noted, (this product or product name) kills the following organisms on hard nonporous inanimate surfaces:)		
Organism	ATCC Number	Contact Time
<i>Pseudomonas aeruginosa</i>	(ATCC 15442)	1 minute
<i>Salmonella enterica</i>	(ATCC 10708)	1 minute
<i>Staphylococcus aureus</i>	(ATCC 6538)	1 minute
<i>Acinetobacter baumannii</i>	(ATCC 19606)	1 minute
<i>Escherichia coli</i> O157:H7	(ATCC 35150)	1 minute
(Extended-spectrum B-lactamase) <i>Escherichia coli</i> (ESBL)	(ATCC BAA-196)	1 minute
(New Delhi Metallo-B-lactamase) <i>Escherichia coli</i> (NDM-1)	(BAA-2469)	1 minute
(Metallo-B-lactamase Producing) <i>Pseudomonas aeruginosa</i>	(CDC 2012059 (AR-0230))	1 minute
Methicillin Resistant <i>Staphylococcus aureus</i> - MRSA	(ATCC 33592)	1 minute
Multi-drug Resistant (MDR) <i>Enterococcus faecium</i>	(ATCC 51559)	1 minute
Multi-drug Resistant (MDR) <i>Klebsiella pneumoniae</i>	(ATCC 51503)	1 minute
VIRUCIDAL ACTIVITY* (VIRUSES*): (Under Good Laboratory Practices, [GLPs], in the presence of 5% blood serum, when diluted at 2 fl. oz./gal, and a 1-minute contact time, unless otherwise noted, (this product or product name) kills the following organisms on hard nonporous inanimate surfaces:)		
Organism	ATCC Number or Strain	Contact Time
Human Hepatitis B Virus (Duck Hepatitis B virus as surrogate) (HBV)	(Hepadnavirus Testing, Grimaud strain)	1 minute
Human Hepatitis C Virus (Bovine Viral Diarrhea Virus as surrogate) (HCV)	(NADL strain)	1 minute
Human Immunodeficiency Virus Type 1 (HIV-1) (AIDS Virus)	(IIIB strain)	1 minute
Avian Influenza A Virus (H5N1)	(NIBRG-14 Strain)	1 minute
Herpes Simplex Virus Type 1 (HSV-1)	(ATCC VR-260)	1 minute
Herpes Simplex Virus Type 2 (HSV-2)	(ATCC VR-734)	1 minute
Influenza A Virus (H1N1)	(A/PR/8/34 strain)	1 minute
Influenza B Virus	(B/Lee/40 strain)	1 minute
Norovirus	(ATCC VR-782, Feline Calicivirus as surrogate)	1 minute
Rhinovirus type 37	(VR-1607)	1 minute
Severe Acute Respiratory Syndrome-related Coronavirus 2 (SARS-CoV-2)	(USA-WA1/2020 strain)	1 minute
Vaccinia Virus	(ATCC VR-1508)	1 minute
Human Coronavirus	(ATCC VR-740, 229E)	1 minute
Human Rotavirus	(ATCC VR-2018, strain WA)	1 minute
Human Respiratory Syncytial Virus	(ATCC VR-26, strain Long)	1 minute
ANIMAL PREMISE VIRUCIDAL ACTIVITY: (Under Good Laboratory Practices, [GLPs], in the presence of 5% blood serum, (this product or product name) kills the following organisms on hard nonporous inanimate surfaces:)		
Canine Parvovirus (CPV)	(ATCC VR-2017)	3 minutes at a 1:32 (4 fl. oz./gal) dilution
Feline Calicivirus	(ATCC VR-782)	1 minute at a 1:64 (2 fl. oz./gal) dilution
SOFT SURFACE, NON-FOOD CONTACT SANITIZER IN NON-HEALTHCARE SETTINGS: For spot treatment of cotton or polyester/cotton blend (fabrics) (materials) (Insert types of surfaces(s))		
<i>Klebsiella aerogenes</i>	(ATCC 13048)	3 minutes at a 1:32 (4 fl. oz./gal) dilution
<i>Staphylococcus aureus</i>	(ATCC 6538)	3 minutes at a 1:32 (4 fl. oz./gal) dilution

Bracketed information is denoted as: [required qualifier], (optional text), {insert as noted}.

Vinyl	Hard Plastic Desks	Folding Tables	Tables
Bathroom (counter tops) (surfaces)	Nonporous Flooring material	Sealed stone and concrete	Other hard, nonporous bathroom surfaces
Laundry Hampers	(Medical) (Hospital) Beds	Grocery Cart(s) (Handles)	Recycling Bin(s)
Racks	Over-Bed Tables	Wheelchair(s)	Flexible non-porous surfaces
coated (removable) (plastic) covers for mattresses	coated (removable) (plastic) covers for pillows	docking stations	exercise equipment
computer mouse, keyboards, peripherals, tables	handheld (electronic) devices	mobile workstations	
		other hard, nonporous environmental surfaces	

Use this product (product name) on soft, cotton or polyester/cotton surfaces of (like):			
Upholstery	Fabric	Drapes	Window treatment(s)
Curtain(s)	Draperies	Shower curtain(s)	Cushions
Fabric barriers	(fabric or upholstered) seats and couches	Upholstered furniture	Linen(s)
Exercise mats	Gym bags	Chairs	Seat (soft) cushions
Sofas	Couches	Equipment (lining)	Towels
Mattresses	Headrest(s)	Soft (fabric) surfaces	Jerseys
Uniforms	Sports equipment (lining)	Upholstered (arm)chairs	Upholstered couches
		Other soft exterior surfaces (of -or- only)	

Bracketed information is denoted as: [required qualifier], (optional text), {insert as noted}.
The term "this product" used throughout this document may be replaced with the marketed product brand name.
Punctuation and plural or singular word forms may be adjusted to allow for grammatical correctness.

Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Visibly soiled areas must be pre-cleaned prior to treatment.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

(This product is not for use on marble or other acid sensitive surfaces.)

For use as a One-Step Disinfectant, Deodorizer, and Cleaner on Hard, Inanimate Nonporous

Environmental Surfaces: For one-step disinfecting, deodorizing, and cleaning in the presence of 5% organic soil use (Product Name) at 2 fl. oz. per gallon of water (unless otherwise noted). Hold (container) (sprayer) six to eight inches from the surface to be treated. Spray (Product Name) through a trigger sprayer, mechanical sprayer, or other coarse spray device. Make sure to wet surfaces thoroughly. Treated surfaces must remain visibly wet for 1-minute (60 seconds). Visibly soiled areas must be pre-cleaned prior to treatment. Wipe off with a clean cloth or allow to air dry. When used as directed, this product is effective against {insert selected pathogens from the efficacy table} or {*Pseudomonas aeruginosa*, *Salmonella enterica*, *Staphylococcus aureus*, Methicillin Resistant *Staphylococcus aureus* (MRSA), Multi-drug Resistant (MDR) *Enterococcus faecium*, Multi-drug Resistant (MDR) *Klebsiella pneumoniae*.}

Before using this product in food processing areas, all food products and packaging materials must be removed from the room or carefully protected. After use, all food contact surfaces must be thoroughly rinsed with potable water before reuse. Do not use this product to disinfect or clean utensils, glasses, dishes or cookware.

***Virucidal Activity on Hard, Inanimate Nonporous Environmental Surfaces:**

Dilute (Product Name) at 2 fl. oz. per gallon of water (unless otherwise noted). Apply through a trigger sprayer, mechanical sprayer, or other coarse spray device. Make sure to wet surfaces thoroughly. Treated surfaces must remain visibly wet for 1-minute (60 seconds) unless otherwise noted. Visibly soiled areas must be pre-cleaned prior to treatment. Wipe off with a clean cloth or allow to air dry. When used as directed, (this product) (Product Name) is effective against Hepatitis C Virus (HCV), Hepatitis B Virus (HBV), Herpes Simplex Virus Type 1 (HSV-1), Human Immunodeficiency Virus Type 1 (HIV-1), Avian Influenza A Virus (H5N1), H1N1 Influenza A Virus, Influenza B Virus, Norovirus, Rhinovirus type 37, Severe Acute Respiratory Syndrome-related Coronavirus 2 (SARS-CoV-2) and Vaccinia Virus when the treated surface is allowed to remain wet for 1 minute.

***KILLS HCV, HBV AND HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Hepatitis C Virus (HCV), Hepatitis B Virus (HBV) and Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HCV, HBV AND HIV-1 ON SURFACES OR OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

PERSONAL PROTECTION: Exposure to blood or body fluids must be avoided by use of barrier protection such as latex or other impervious gloves. Face shields and impervious gowns must also be worn if splashing of blood or body fluids may occur.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of (Product Name).

CONTACT TIME: Leave surfaces wet for 1 minute.

DISPOSAL OF INFECTIOUS MATERIAL: Contaminated cleaning materials, blood and other body fluids must be autoclaved and/or disposed of according to local regulations for infectious waste disposal.

Animal Premise Virucidal Activity on Hard, Inanimate Nonporous Environmental Surfaces:

This product (or product name) kills Feline Calicivirus in 1 minute (60 seconds) at a 2.0 fl. oz. (1:64) per gallon dilution and Canine Parvovirus in **3 minutes** at a 4.0 fl. oz. (1:32) per gallon dilution.

Prior to use of this product, remove all animals and feeds from premises, animal transportation vehicles, and enclosures. Empty all troughs, racks and other feeding and water appliances. Items that should be immersed for proper treatment should be removed as the test application does not support this type of use. Thoroughly clean surfaces and rinse with water. Apply with a trigger sprayer, or other coarse spray device. Wipe off with a clean cloth or allow to air dry. Do not breathe spray or mist. Ventilate buildings, coops, and other closed spaces. Do not house animals, poultry, livestock or employ equipment until treatment has been absorbed, set, or dried.

To Sanitize Soft, Non-Food Contact Surfaces for Spot Treatment in Non-Healthcare Settings:

Visibly soiled areas must be pre-cleaned prior to treatment. Dilute (Product Name) at 4 fl. oz. per gallon of water. Apply (Product Name) (this product) with a trigger sprayer, mechanical sprayer, or other coarse spray device. Hold sprayer six to eight inches from the surface and spray until fabric is wet. Fabric must remain wet for 3 minutes. Allow fabric to air dry. Reapply as necessary. (Prior to first use on a particular surface, it is recommended to test in a small, discreet area if there is concern of colorfastness.) When used as directed this product is effective against *Klebsiella aerogenes* and *Staphylococcus aureus* (on soft (materials) (surfaces) (and) (fabric(s))).

For Use as a Cleaner and/or Deodorizer:

Dilute (product or product name) at 2 fl. oz. per gallon of water. Spray (this product) (Product Name) evenly over hard, nonporous inanimate surfaces to be cleaned, 6 – 8 inches from surface, making sure to wet surfaces thoroughly. Wipe surfaces dry (or rinse) (or allow to air dry).

Malodor(s) (Activity) (Counteractant):

Eliminates (destroys) odors and odor-causing bacteria on hard, nonporous surfaces in restroom areas, behind and under sinks and counters, and storage areas (and other places where bacterial growth can cause malodors).

(NOTE TO EPA –The following text will be used on containers of 1 gallon or less which are unable to be rinsed.)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area inaccessible to children.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Replace cap and discard in trash.

(NOTE TO EPA –The following text will be used on containers of 5 gallons or less which can be rinsed.)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area inaccessible to children.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill container. Triple rinse as follows: Fill container ¼ full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

(NOTE TO EPA –The following text will be used on containers of 5 gallons or greater.)

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area inaccessible to children.

Pesticide Disposal: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill container. Triple rinse as follows: Fill container ¼ full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

KEEP OUT OF REACH OF CHILDREN DANGER

The product in this container is diluted as directed on the pesticide product label.
Follow the directions for use on the pesticide label when applying this product.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear protective eyewear. Wear long-sleeved shirt, long pants, socks and shoes, and chemical resistant gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

(Optional phrases)

Read the safety data sheet before using.

See first aid statement on pesticide product label.

The product in this container is not for sale and is for storage and use.

Do not mix with other chemicals
