Lightly Soiled Areas — surfaces to be cleaned should be mopped or brushed with a solution of 1 ounce of Michco Disinfectant Cleaner per gallon of water. Rinse cleaned area with clean water.

Heavy Soiled Areas — mop or brush soiled surface with a solution containing 2-3 ounces of Michco Disinfectant Cleaner per gallon of water. Rinse cleaned surface with fresh water.

To disinfect walls, floors, and other surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution of 1½ ounces of Michco Disinfectant Cleaner per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of Michco Disinfectant Cleaner and then disinfected. Those surfaces that may later come in contact with food must be rinsed with clear water of drinking quality.

To disinfect locker rooms, shower stalls, walkways around pools, and other areas where fungicidal action is required, mop area with a solution containing 2 ounces in 3 gallons of water. This solution will destroy *Trichophyton Interdigitale*, a causative agent of athlete's foot.

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2½ ounces of Michco Disinfectant Cleaner per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a solution containing 2 ounces per gallon before disinfection.

To sanitize floors and equipment in food processing plants, first clean thoroughly with a solution containing 1 ounce of Michco Disinfectant Cleaner per gallon of water. If surface is heavily soiled use Michco Disinfectant Cleaner at a rate of 2 to 3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing ½ ounce of Michco Disinfectant Cleaner per gallon of water. Those surfaces which will contact with food must be rinsed with water of drinking quality before reuse.

To deodorize surfaces during cleaning, mop or brush surface with a solution containing 2 ounces of Michco Disinfectant Cleaner per gallon of water. Michco Disinfectant Cleaner is an effective anti-bacterial cleaner designed for use in household, industrial, and institutional cleaning. When used as directed, Michco Disinfectant Cleaner will disinfect hard surfaces, such as floor, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used as a general purpose antibacterial - anti-fungal detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, food processing plants, and in other places where efficient cleaning and antimicrobial action is desired. See left panel for use direction.

Keep Out of Reach of Children. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately. Note to Physician — Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
