## DIRECTIONS FOR USE

INITIAL DOSE: 1 gallon Algaecide to 50,000 gallons of water.

MAINTENANCE DOSE: 1 quart to 50,000 gallons of water.

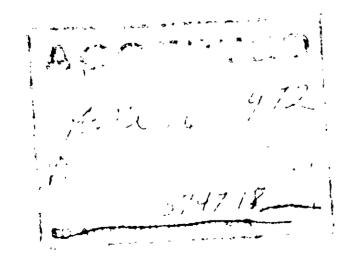

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of Algaecide for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of Algaecide to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

## SWIMMING POOL ALGAECIDE

Concentrated Swmming Pool Algaecide
Keeps Pool Vlater Clear and Free of

Visible Algae

## **Controls Algae Slimes**

ACTIVE INGREDIENTS:	
n-Alkyl (60% C <sub>11</sub> , 30% C <sub>16</sub> , 5% C <sub>12</sub> , 5% C <sub>18</sub> )	
dimethyl benzyl ammonium chlorides	
dimethyl ethylbenzyl ammonium chlorides	5%
INERT INGREDIENTS:	90%
	100%

ÉPA Reg. No. 5747-18

### DANGER

Keep Out of Reach of Children. See other dangers on side panel.

Rinse empty container thoroughly with water and discard.

#### MANUFACTURED BY

Arrow Chemical Products, Inc., Detroit, Mich. 48216

When Algaecide is used as directed, it will kill and prevent development of Chlorella pyrenoidosa (green), Phormidium inundatum (black algae), Phormidium retzii (Square D algae), Lyngba versicolor (blue-green) and other swimming pool algae.

It is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. It works best when added by itself directly to pool water. At use dilution is non-corrosive to inanimate surfaces.

#### DANGER

Keep Out of Reach of Children. Do not get in eyes, skin or on clothing. Causes severe eye irritation. Causes skin irritation. In case of contact, wash immediately with plenty of water. For eyes, get medical attention immediately. Harmful if swallowed. Avoid contamination of food.

"Corrosive." Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Remove and wash contaminated clothing before reuse.

## FIRST AID

If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

This Product is Toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label. Note to Physician: Probable mucosol damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
