**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. If swallowed, call a physician immediately. (Atropine is antidote.) Do not use as a space spray. Avoid breathing of spray mist and provide adequate ventilation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Do not apply to humans or pets. Do not allow children or pets to contact treated surfaces until dry. Do not spray food, water, dishes or utensils. Do not use in commercial food preparation areas or in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas where food is exposed. Remove pets and cover fish bowls before spraying. Do not spray heavily on linoleum, asphalt tile and siding or plastics.

PHYSICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

This product is a highly effective formulation which provides rapid kill for crawling insects as listed below, including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. In addition to rapid kill, this product stays on treated surfaces and kills insects for two weeks after the spray has dried.

Hold can upright, point valve opening away from person. Hold can about 12 inches from surface being sprayed. Push button to release spray.

To Kill Roaches, Ants, Water Bugs, Spiders, Silverfish, Crickets, Scorpions: Direct spray on baseboards, door and window trim, infested cracks, under carpets and rugs and such hiding places as under sinks, drainboards, shelves, cabinets and around pipes. Spray directly on crawling insects wherever possible. Spray areas until wet. Allow residue to remain undisturbed, as this will insure to kill crawling insects for two weeks. Repeat as necessary.

To Kill Flies, Mosquitoes, Wasps and Certain Other Flying Insects: spray on outdoor surfaces of screens, window frames, doors, light fixtures, porches, garages, outdoors and other places where these insects might crawl. Do not use contents of this container as a space spray indoors. Instead use HOT SHOT FLYING INSECT KILLER in space spraying indoors.
