UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, DC 20460

OFFICE OF  
PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

October 5, 2006

Bruce F. Lavery  
**Spurrier Chemical Companies, Inc.**  
P.O. Box 2812  
1200 East Central  
Wichita, KS. 67201

Subject: Spur-Tex 805 Sanitizer Cleaner for Soft Ice Cream Freezers  
EPA Registration Number 5768-9  
Application Date: June 7 and July 17, 2006

Dear Mr. Lavery:

The Agency has received the Certification with Respect to Child Resistant Packaging (CRP) you have submitted in accordance with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). At this time our review has not been completed, but is expected soon and the results will be sent under separate cover. In addition, you have requested a review of a label amendment for changing the net weight of your product. An amendment for this action is not required and can be made by notification instead. However, the Agency reviewed your label since you previously did not submit your most recently approved label. You must make the following changes:

Under Storage and Disposal change decomposition to spill.

Under Sanitizing Rinse delete "or for contact time specified by governing sanitary code. "

At that point insert the following: Do not rinse and do not soak overnight.

A copy of your conditionally accepted label is enclosed. Should you have any questions or comments concerning this letter, please contact Tom Luminello at (703) 308-8075.

Sincerely,

A handwritten signature in cursive script, appearing to read "Emily H. Mitchell".

Emily H. Mitchell  
Product Manager 32  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

**Precautionary Statements**  
**Hazards to Humans and Domestic Animals**

**DANGER**

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Remove and wash contaminated clothing before reuse. Harmful if swallowed. Avoid contamination of food. Wash thoroughly with soap and water after handling.

Spill

**STORAGE AND DISPOSAL**

Keep product dry in tightly closed containers when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of a decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Do not reuse container; rinse empty container thoroughly with water and discard it, or place in trash collection or dispose in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

**PESTICIDE DISPOSAL**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

7 26133 10255 7

**ENVIRONMENTAL HAZARD**

This pesticide is toxic to fish and aquatic organisms.

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eye open, rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

(SEE OTHER PRECAUTIONS ON LEFT PANEL)

**EPA REG. NO. 5768-9**

**EPA EST. NO. 5768 KS.1**

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Clean and rinse all equipment before sanitizing.
2. **SOFT ICE CREAM FREEZERS:** Rinse thoroughly with warm water. Add 3 oz. SPUR-TEX SC (6 level Tbs.) to 3 gallons of water in mix hopper. Pump into freezer and operate beater 5 to 6 minutes. Drain and rinse with potable water. Dismantle, check and wipe or brush if needed. Sanitize before using by flushing for at least 2 minutes with 2 oz. SC (4 level Tbs.) to 4 gallons of water (125 ppm available chlorine). Drain and air dry.

3. **SANITIZING RINSE** - 3 compartment sink: Scrape and pre-wash utensils and glasses whenever possible. Wash with a good detergent or compatible cleaner. Rinse with clean potable water. Sanitize by immersing in solution of 2 1/2 oz. SPUR-TEX SC (5 level Tbs.) in 3 gallons of water (193 ppm available chlorine) for at least 2 minutes, or for contact time specified by governing sanitary code. Place utensils on a rack or drainboard to air dry.

4. **Cleaning and Deodorizing Porcelain, Wood, and Enameled Surfaces** such as sinks and refrigerators: Use 1 oz. (2 level Tbs.) SPUR-TEX SC per quart of water (920 ppm available chlorine) and apply this solution to such surfaces. Allow solution to contact surface at least 1 minute, then drain and air dry.

For removal of hardened milkstone, calcium, or rust use SPUR-TEX Sanitizer Cleaner as a scouring powder, applying with a sponge.

Do not use on resilient tile, aluminum or painted surfaces.

Make up fresh SC solution each morning and as frequently during the day as is necessary. Do not re-use soiled sanitizing solutions.
