<b>US ENVIRONMENTAL PROTECTION AGENCY</b> <b>OFFICE OF PESTICIDES PROGRAMS</b> <b>REGISTRATION DIVISION (75-767)</b> <b>WASHINGTON, DC 20460</b>  <b>NOTICE OF PESTICIDE:</b> <input type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	<b>EPA REGISTRATION NO.</b> <b>5768-12</b> <b>TERM OF ISSUANCE</b>  <b>NAME OF PESTICIDE PRODUCT</b>  <b>Spur-TeX</b>	<b>DATE OF ISSUANCE</b> <b>SEP 9 1996</b>
<b>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</b>  <b>Suncoast Chemicals Company</b> <b>11480 62nd Street North</b> <b>Clearwater, FL 34620</b>		
<b>NOTE:</b> Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
<b>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</b>		
<b>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</b>		
<b>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</b>		
<b>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</b>		
<b>Make the following labeling changes before you release the product for shipment:</b>		
<ol style="list-style-type: none"><li><b>Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 3 products.</b></li><li><b>Revise the Environmental Hazards to read as follows:</b>  <b>"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public... waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.</b></li></ol>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
<b>SIGNATURE OF APPROVING OFFICIAL</b>		<b>DATE</b>

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

3. List your Companys "Name and Address" on the label.

A stamped copy of the product label is enclosed for your records.

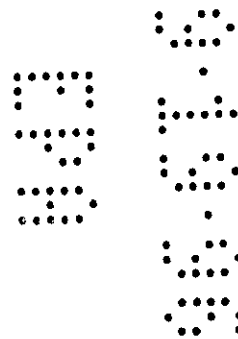

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

## Attachment A - Batch 3 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

If Swallowed: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Call a physician or Poison Control Center.

If on Skin: Wash with plenty of soap and water. Get medical attention.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

If in Eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

Note to Physician: Probably mucosal damage may contraindicate the use of gastric lavage.

# SPUR—TEX

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

### DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

### PHYSICAL AND CHEMICAL HAZARDS

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

## 814 • SANITIZER • 814

### Active Ingredient

Sodium Dichloro-s-triazinetriene Dihydrate ..... 25%

Inert Ingredients ..... 75%

Provides 14% available chlorine

## KEEP OUT OF REACH OF CHILDREN DANGER

### Practical Treatment FIRST AID

If swallowed: Drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately. Probable mucosal damage may contraindicate the use of gastric lavage.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

If inhaled: Remove person to fresh air. Get immediate medical attention.

SPUR-TEX SANITIZER is recommended for use on hard (non-porous) surfaces or on dishes, glasses or food processing equipment or utensils, in any institutional or industrial food processing application (restaurants, dairies, breweries.)

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Prepare a sanitizing solution by dissolving 1 oz. or 2 oz. of Spur-Text Sanitizer per 10 gallons of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean item or surface with a suitable detergent and rinse prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2-5 minutes and then drain and air dry.

The same solution should be used in the feed tank in immersion or spray type machines, providing 2-5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean items with a suitable detergent and rinse prior to sanitizing. After sanitizing step allow items to drain and air dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. In manual operations, prepare fresh sanitizing solution daily, or more often as necessary if the solution becomes diluted or soiled. In machine operations, do not reuse the sanitizing solution.

#### STORAGE AND DISPOSAL

Keep product dry in tightly closed containers when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of a decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Rinse empty container thoroughly with water. Securely wrap container in several layers of newspaper and discard in trash. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

#### PESTICIDE DISPOSAL

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If those wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
