AND TOXIC SUBSTANCES

JUN 23 2003

Bruce F. Lavery
Spurrier Chemical Companies
1200 East Central P.O. Box 2812
Wichita, KS. 67201

SUBJECT: May 19, 2003 label amendment
EPA Registration 5768-12
Spur-Tex Sanitizer

Dear Mr. Lavery:

The application for amended registration of the subject product in support of continuing registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following conditions:

- 1). The signal word DANGER must be larger than Keep Out Of Reach of Children (KORC). Since your label is over 30 square inches, DANGER must be at least 18 point size type and the KORC hazard must be at least 12 point size type. Refer to 40 CFR§156.60.
- 2). You must modify the Environmental Hazards statement by deleting all but the first sentence because the NPDES statement is not required for a product under 5 gallons or 50 pounds. The first sentence must be changed to read "This product is to toxic to fish and aquatic organisms".

Because your product is distributed in a 5 pound container, Certification of Child Resistant Packaging must be submitted in accordance with 40 CFR§ 157.20. Tom Luminello spoke with you on June 18, 2003 and you indicated that your package was not in CRP as required and from your description of your market that it did not qualify for as an Industrial use product.

We do not require labels for your distributor label product but changes to your label must be reflected on the distributor product to remain in compliance. A copy of your conditionally approved label is enclosed. You must submit a copy of the final printed label for the file as well as the other information cited above. If you have any questions about this letter, contact Tom Luminello of my staff at (703) 308-8075.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Tom Luminello".

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open, rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

EPA REGISTRATION NO. 5768-12

EPA EST. NO 5768 KS. 1

ACCEPTED
with COMMENTS
in EPA Letter Dated:

JUN 23 2003

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, and the pesticide,
SPUR-TEX, Reg. No.

5768-12

SPUR-TEX SANITIZER is registered for use on dishes, glasses or food processing equipment in industrial food processing applications.

It is a violation of federal law to use this product in a manner inconsistent with labeling.

K Prepare a sanitizing solution of 1 gallon of water. This gives a 1:100 ratio of sanitizer to water. Item or surface with a suitable sanitizer. Dishes, glasses, equipment to be sanitized. Let stand 2-5 minutes.

The same solution should be used for sanitizing processing equipment and utensils. Prior to sanitizing. After sanitizing, equipment are then ready for use.

The sanitizing solution should be prepared fresh. Sanitizing solution becomes diluted or soiled. In this case, the solution should be discarded.

S Keep product dry in tightly closed container in well-ventilated area away from heat. Isolate container if possible. Discard material before discarding. Discard thoroughly with water. Securely discard in trash. Do not contaminate food or equipment.

Pesticide wastes are acutely toxic. Immediately spray mixture, or rinsate is a hazardous waste. Dispose of by use according to the Environmental Control Agency. Nearest EPA Regional Office is in Kansas City, MO.
