**OPERATING
INSTRUCTIONS**

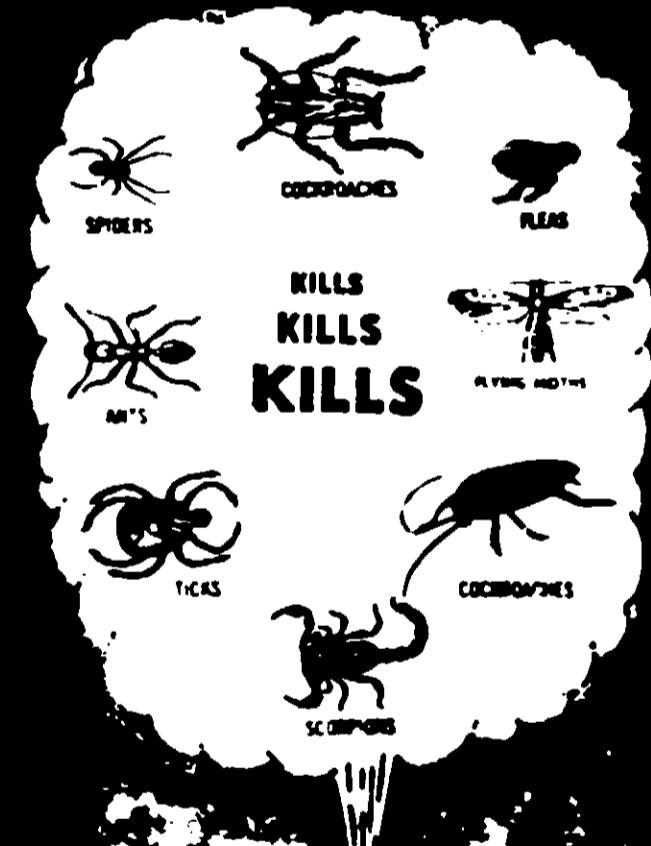

WARNING: When release clip is pressed, the vapor will be released straight up from the top of the nozzle as shown below. Be sure to hold can so that nozzle points away from face and eyes.

Hold at arms length away from face and eyes. Press arrow on trigger button (A) until hook (B) catches over outside of upper rim of can as shown. Do not attempt to remove clip once it has been set. Entire contents of can will be released automatically over a period of several minutes.

**WILL NOT STAIN DRAPES OR
UPHOLSTERY FABRICS
WHEN USED AS DIRECTED**

SPACE
FOGGER

**FOR USE ONLY WHEN HOME IS
VACATED BY HUMANS AND PETS**

DIRECTIONS: Use at least one can for each 5,000 cubic feet of unobstructed area. Where free flow of mist is not assured, or for remote rooms, use additional cans.

Place on table or stand for best results. To prevent marring surface, place newspapers under the can. Close doors and windows. Open cabinets and doors to areas to be treated. Cover exposed foods, dishes and food handling equipment. Remove pets. Cover fish tanks or bowls with paper or remove. Shut off fans and air conditioners. Put out all open flames except pilot light. Place can at least 6 feet away from pilot light. Keep at arm's length when releasing. Point top of can away from face and eyes.

To start fogging, position release clip as shown in the diagram on box and press. Set in upright position and leave the building immediately. Leave undisturbed for two hours. Then open doors and windows and allow the area to air for 30 minutes.

CAUTION: Contents under pressure. DO NOT PUNCTURE OR INCINERATE. DO NOT STORE IN TEMPERATURES IN EXCESS OF 125° F. Avoid contact with skin. Wash hands after handling. Avoid prolonged breathing of mist. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes. Keep out of reach of children. Avoid contamination of food and foodstuffs. Insecticides may soften some asphalt tile floors. If used directly over asphalt tile, newspapers should be spread on the floor for several feet around the area of release. Do not use with freshly waxed floors; allow 3 weeks for wax to harden as this product may cause fresh wax to become softened.

ACTIVE INGREDIENTS: Petroleum Distillates, 8.10%; Technical Piperonyl Butoxide* 4.00%; Ronnel O, G Dimethyl 0-12-4-5 trichlorophenyl Phosphorothioate 2.00%; 2,2-dichlorovinyl dimethyl phosphate, 0.47%; related compounds, 0.03%; Pyrethrins, 0.40%.

INERT INGREDIENTS: 85.00%; Trichloromethane, Dichlorodifluoromethane (Equivalent to 3.20% of Butylcarbitol) (6-propylpiperonyl ether) and 8.5% related compounds.
