pesticide registered under
EPA Reg. No. 5813-21

Tackle

Tackle is the Cleaner disinfectant which combines powerful cleaning, disinfectant and stain removal in one product. A new type of bleach product for household cleaning and disinfecting.

- Contains sodium hypochlorite plus a powerful cleaner.
- Removes tough stains and greasy dirt, too.
- Disinfects and has a clean, fresh fragrance.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Household Cleaning and Stain Removal:

Apply tackle with a damp sponge or squeeze directly to surfaces such as counters, sinks, tubs, tile, fiberglass, no-wax floors, and kitchen appliances. Rinse or wipe clean. Prolonged contact with metal, old porcelain, and worn Formica® may cause discoloration. For sensitive skin or prolonged use, wear gloves.

Floors: Mop washable floors including no-wax floors, linoleum, vinyl and ceramic tile with solution of 1/2 or 1 cup per gallon of warm water. Rinse for the best shine.

Toilet Bowls: To disinfect, flush toilet and add 3/4 cup Tackle to bowl water. Brush to thoroughly wet all surfaces including under the rim. Let stand 5 minutes before flushing.

Other Hard Non-Porous Surfaces: To disinfect, apply full strength with cloth or sponge to wet surfaces thoroughly. Let stand 5 minutes. Kills staph, strep, mildew, and athlete's foot fungus. For heavy soil, or heavily soiled surfaces, pre-cleaning is required before disinfecting.

Economic Refill: For real economy and the convenience of a squeeze bottle, refill your smaller size.

Apply Carefully – Tackle Contains Bleach

PRECAUTIONARY STATEMENTS: Hazards to humans and domestic animals.

WARNING: Causes eye and skin irritation. Do not get in eyes or on clothing. Odors may irritate. Use only in well ventilated areas. Avoid prolonged breathing of vapor. Not recommended for use by persons with heart conditions or chronic respiratory problems such as asthma, emphysema or obstructive lung disease. Harmful if swallowed. For sensitive skin or prolonged use, wear gloves.

STATEMENT OF PRACTICAL TREATMENT: If splashed in eyes, immediately remove contact lenses and rinse thoroughly for at least 15 minutes. If swallowed, drink a glass of water. Get prompt medical attention. If breathing is affected, get fresh air immediately. If contact with skin, remove contaminated clothing and wash skin. **Physical and Chemical Hazards:** Tackle contains bleach. Do not use or mix Tackle with other household chemicals such as products containing ammonia, toilet bowl cleaners, rust removers, vinegar or acid. To do so will release hazardous gases. Rinse immediately after use on metal to avoid pitting or discoloration. Avoid contact with clothes, fabric, wood, rubber, carpet, painted and paper surfaces.

STORAGE AND DISPOSAL: STORAGE: Store in a cool place. **DISPOSAL:** Do not reuse empty container. Wrap container in a plastic bag and discard.

-or-

DISPOSAL: Wrap container in plastic bag and discard, or refill from a larger size Tackle.
