Subject: Tackle®, EPA Reg. No. 5813-21  
OPP EE0047

Dear Ms. Mitchell:

The Clorox Company is submitting a final printed label (FPL) for Tackle® (EPA Reg. No. 5813-21) in response to the Agency's letter dated May 28, 2009. We have complied with all comments; however, this FPL is being immediately followed with another notification (per PR Notice 2007-4) to revise the container rule text. The revision will be based on guidance from Nancy Fitz and the Container-Containment Label Workgroup.

The next notification will properly address our 16 and 32 fl oz spray bottle that can be refilled by the user. Nancy's recommendation based on the container-containment regulations, chapter 13 of the Label Review Manual, and information we provided that the spray bottles can be refilled by the user was to revise the "reuse" statement as follows:

"Do not reuse or refill this container except as described in the directions for use."

This language will appear on our next notification (included in the envelope with this submission).

Please contact me at (925) 425-6199 or Evelyn Lawson at (925) 425-6842 or if you have any questions. Thank you.

Sincerely,

Elisa Estremera-Pasky  
Regulatory Scientist
