	Name of Pesticide Product: CTW	
Name and Address of Registrant (include ZIP Code): The Clorox Company P.O. Box 493 Pleasanton, CA 94566-0803		
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.		
Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.		
2. Make the labeling changes listed below before you release the product for shipment:		
a. Add the phrase "EPA Registration Number 5813-78".		
b. On page 3 of the proposed label [under Main product Claims], remove "hampers" or specify type of hampers. Also, [under Deodorizing Claims], remove "Kill odor-causing germs". "Odor-causing" implies non-public health issue while "germs" implies public health issue.		
Signature of Approving Official:  Adam Heyward Product Manager Team-34 Regulatory Management Branch II Antimicrobials Division (7510C)	Date: November 18, 2005	

3. The storage stability and corrosion characteristics studies must be repeated under the Condition of the Good laboratory Practice and submitted to the Agency for review within one year from the date of the subject product registration notice.

4. Submit three (3) copies of the final printed label prior to releasing this product for sale.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Adam Heyward
