Subject: Clorox® Losenip
EPA Registration No.: 5813-83
Notification Date: 10/28/2011
EPA Receipt Date: 10/28/2011

Dear Ms. Lawson,

This acknowledges the receipt of your notification, submitted under the provision of PR Notice 98-10 and FIFRA section 3(c)9.

Proposed Notification

- Update of EPA Est. Nos.
- Ingredient Disclosure website

General Comments

Based on a review of the submitted materials, your notifications for the update of the EPA Est. numbers and the addition of an ingredient disclosure website are acceptable and have been made a part of the records on file.

Should you wish to retain a reference to the company's website on your label, then please be aware that such a reference transforms the website into labeling under the Federal Insecticide Fungicide and Rodenticide Act sec 2 (p) (2) and then the website is subject to review by the Agency. If the website content is false or misleading, the product would be misbranded and its sale or distribution unlawful to sell or distribute under FIFRA section 12(a)(1)(E). In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Although EPA has not yet determined the extent to which it will routinely review company websites, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from claims approved through the registration process, the website may be referred to the EPA's Office of Enforcement and Compliance Assurance.
