Efficacy Comments:

- b. On page two (2) under the "General Use" section delete the subheading "General Use" as per PR 2000-5 Mandatory/Advisory Language. Remove all occurrences of the word "safe" as defined in FIFRA Section 2(q)(1)(A), a pesticide is misbranded if its labeling bears any statement, design or graphic representation which is false or misleading. FIFRA Section 12(a)(1)(E) provides that it is unlawful for any person to distribute or sell any pesticide which is misbranded. EPA's regulation, at 40 CFR 156.10(a)(5), provides examples of statements that are considered to be misbranded; such as: Safety claims of the pesticide, or its ingredients, including statements such as "trusted," "safe," "nonpoisonous," "non-injurious," "harmless" or "nontoxic to humans and pets" with or without such a qualifying phrase as "when used as directed."
- c. Delete "Hospital Grade Disinfectant" on page three (3). As per 40 CFR 156.10(a)(5) it is considered to be a false or misleading statement. Product labeling claims considered to be false or misleading with respect to the product's chemical composition, individual ingredients, level of activity, non-pesticidal effects, etc., include but are not limited to "hospital grade".
- d. On page two (2) under Claims change "Avoid use" to "Do not use" on... as per PR Notice 2000-5, Guidance for Mandatory and Advisory Labeling Statements.
- e. On page four (4) of the proposed label, the term "recyclable" has not been qualified. Delete the term "recyclable."
- f. On page five (5), revise the heading "Surfaces" to state: "hard non-porous surfaces associated with the following:"
- g. Under the "Surfaces" section on page eight (8) of the proposed label, additional clarity is required for "ceiling". Ceiling materials are often porous.
- h. Under the "Surfaces" and "Surface Materials" sections on page eight (8) of the proposed label, change "fiberglass" to read "sealed fiberglass." Fiberglass is a porous surface.
- i. Under the "Surfaces" section on page eight (8) of the proposed label, change "tile" to read "glazed tile" and change "enamel" to baked enamel."
- j. The proposed label claims that the product, Carb, is streptocidal. Data were not provided to support this claim. This claim must be deleted from page three (3) of the proposed label.
- k. Add the following statement to the disinfection directions on page three (3): "A potable water rinse is required for food contact surfaces.
- l. On page eight (8) last column under "Surface Materials" revise to read: "Do not use on:" as per PR 2000-5 "Recommended" is not acceptable.
