## WEED KILLER AND LAWN FOOD

### 10-6-4

### DIRECTIONS

#### APPLYING

Fertilizer should be applied with a good spreader at 10-6-4. Use 10-6-4 fertilizer in the form of spreading, by using some type of marker to indicate coverage.

#### TIME OF APPLICATION

Most broad leaf weeds will be controlled best when applied in the fall. Weeds are growing rapidly. For best results, apply several times after mowing. For best results, apply several times for several more days.

Perennial weeds will be controlled best when applied in the fall.

#### FOLLOW-THRU

Control weeds that grow in the lawn. Apply 10-6-4 fertilizer in the fall. For best results, apply several times after mowing. For best results, apply several times for several more days.
