Lancer Liquid Sanitizer

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Kay Chemical Company  
P.O. Box 1467  
Greensboro, NC 27419

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with section 3(c)(7)(A) provided that you:

1. Submit to EPA all data required for registration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. For the phrase "EPA Registration No. 5389-12" on your label, you agree to delete the product for sale.

3. Submit to EPA (5) copies of your final printed label for review and release of the product for shipment. Labels for this Act must be printed on a second color printed sheet.

If these conditions are not complied with, the registration is subject to cancellation in accordance with FIFRA section (6).

The Agency reserves the right to suspend or cancel the registration of this product at any time.

A copy of the label is being furnished to you for review.

LANCER™ Liquid Sanitizer

DESCRIPTION

LANCER Liquid Sanitizer is a general  
purpose sanitizer for use in restaurants,  
dairies, food processing plants, and food and  
beverage operations. Lancer is designed for  
sanitizing utensils, equipment and other food  
contact surfaces in both manual and CIP  
systems.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this  
product in a manner inconsistent with its  
labeling.

KITCHEN UTENSILS AND EQUIPMENT

1. Scrape or rinse all loose food soil.
2. Brush wash with a suitable detergent.
3. Rinse thoroughly with clean water.
4. In a clean sink, prepare a sanitizing  
solution by mixing LANCER in water. Use 1  
1/4 ounce LANCER per each gallon of water.
5. Immerse utensils or equipment for 1-2  
minutes.
6. Remove and drain. Place on a clean sur-  
face to dry. Follow local health ordinances.

Prepare a fresh solution of 1/4 ounce  
LANCER per gallon of water daily or  
more often if the solution becomes di-  
luted or soiled. This provides 1100 ppm  
phosphoric acid and 100 ppm dodecylben-  
zene sulfonic acid.

CIP SYSTEMS AND STATIONARY EQUIPMENT

Pre-clean and rinse equipment and CIP Systems.  
For closed CIP Systems fill the system with  
fresh sanitizer solution and allow the solu-  
tion to stay in contact with internal parts  
for 10 minutes before draining the system.  
For circulating CIP dairy dispensing systems,  
circulate a fresh sanitizer solution through  
the dairy dispensing machine for 10 minutes  
before draining the machine.  
For other stationary equipment, flood the  
surface or apply with a clean cloth, sponge or  
sprayer. Wet all surfaces with the sanitizer  
solution for at least 60 seconds. Drain and  
let air dry. Follow local health ordinances.
