

EASTERDAY SK-"32"

EASTERDAY SK-"32" is a disinfectant, cleaner and sanitizer compounded for general duty and light industrial cleaning. When used as directed, EASTERDAY SK-"32" will clean, deodorize, and sanitize in one operation those areas which generally are hard to keep fresh smelling, such as bathrooms, doctor offices, locker rooms, restrooms and food handling plants which are prone to odors caused by the growth of some micro-organisms.

EASTERDAY SK-"32" can be used on any surface not harmed by water when diluted according to directions.

WARNING:

KEEP OUT OF REACH OF CHILDREN. Causes eye and skin irritations. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed do not induce vomiting. Drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

Sodium carbonate	3.0%
Essential Oils	1.0%
Inert Ingredients	92.8%
Total	100.0%

WARNING

KEEP OUT OF REACH OF CHILDREN

See left side panel for additional precautions.

USDA REG. NO. 5849-8
NET CONTENTS

DIRECTIONS

Use at 1 ounce per gallon of water. EASTERDAY SK-"32" will provide 500 ppm of quaternary use solution. This solution is suitable for general disinfection and deodorizing of non-metal products. Resistant to acids. Full dilution will be required for contact with equipment and other food contact items. For the use dilution to 1/2 ounce per gallon equivalent to 200 ppm of quaternaries.

Before using EASTERDAY SK-"32" for disinfection a pre-cleaning step is recommended if the soil is heavy.

For best results, use EASTERDAY SK-"32" with a cloth or mop and apply to walls, floors, and other hard surfaces.

Rinse empty container thoroughly with water and discard it.

E A S T E R D A Y SK-"32"

PRODUCT DATA SHEET:

EASTERDAY SK-"32" is an economical and powerful concentrated quaternary germicidal cleaner. It is effective against most Gram positive and Gram negative bacteria.

EASTERDAY SK-"32" is excellent for cleaning and disinfecting floors and walls where a bactericidal cleaner would be advantageous or required such as clinics, isolation wards, nurseries, doctors offices, kitchens, locker rooms, restrooms, showers, food handling plants, restaurants, schools and others.

EASTERDAY SK-"32" is for use on any surfaces not harmed by water. Although quaternaries have been accepted for use in sanitizing glasses and dishes in public establishments, SK-"32" is a concentrated cleaner and should not come in direct contact with food.

EASTERDAY SK-"32" is a cationic material (+ charge) and must not be used with anionic material (- charge) such as anionic detergents and soaps since the two kinds are not compatible, and will make EASTERDAY SK-"32" ineffective as a disinfectant.

SPECIFICATIONS

COLOR	GREEN
ACTIVE INGREDIENTS ..		6.2%
pH	10.9-11.1

Use Dilution:

For extra heavy soil or organic matter, a precleaning step is recommended before use.

General Disinfection	2 fl oz/gal (500 ppm)
Pseudomonicidal Disinfection	3 fl oz/gal
Food equipment or food contact items	3/4 fl oz/gal (200 ppm)
