## EASTERDAY MP-45

EASTERDAY MP-45 is a cleaner, disinfectant, and sanitizer, designed for institutional use such as Hospitals, Nursing Homes and Institutions where housekeeping will be of prime importance in reducing the hazard of cross-infection from environmental surfaces. EASTERDAY MP-45 can provide the assurance you need in this area, when used as directed. For use on floors, walls, sink tops, garbage pails, telephones, rest rooms, bed pans and operating rooms. Effective against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa, effective against pathogenic fungi, Trichophyton interdigitale, and also effective against Influenza A2, Herpes Simplex, Adenovirus type 2, and Vaccinia viruses when used on inanimate environmental surfaces as directed. When used for sanitization of food processing equipment and food contact items, limit active quaternary to 200 ppm. After using for sanitizing, rinse with potable water before using equipment.

### WARNING

KEEP OUT OF REACH OF CHILDREN. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

### FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

## USE DIRECTIONS

Use at 2 ounces per gallon. This product will be effective against Pseudomonas aeruginosa PRD 10 at this level. This has been substantiated by the AOAC Use Dilution Confirmation Test. At this level, the product is fungicidal against pathogenic fungi.

This product when used on environmental, inanimate, hard surfaces at 2 ounces per gallon of water, is effective against Influenza A2, Herpes Simplex, Adenovirus type 2, and Vaccinia Viruses.

For best results, use EASTERDAY MP-45 with a cloth or mop and apply to walls, floors and other hard surfaces. If used for sanitization of food equipment or food contact items, limit the level of active quaternary to 200 ppm (2.8 ounces per 5 gallons). After using for Sanitizing, rinse with potable water before using equipment. For heavy soil or organic matter, a precleaning step is recommended.

#### PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. Aureus	42
S. typhosa	27

Rinse empty container thoroughly with water and discard.
