EMERALD  
TH OBLIQUE

To control slime and scale in water reservoirs of Ice Bath Refrigeration Systems for Soft Drink Dispensers, add 2 to 3 ounces of MISO-K 29 per gallon of water. This charge will be effective for approximately one year. Whenever the reservoir is drained and cleaned, a fresh charge of MISO-K 29 should be added.

1 pt. TEMPO  
MED.

→ NOTE: MISO-K 29 is not intended for use in potable water supply systems.
