K MART ROSE & FLOWER BOMB is designed for effective control of the major fungus and plant diseases attacking ROSES. It kills and discourages a large range of insects and pests and yields excellent results when used in the garden on roses and many other ornamentals.

K MART ROSE & FLOWER BOMB controls BLACK SPOT and POWDERY MILDEW on roses. **K MART ROSE & FLOWER BOMB** controls ROSE APHIDS, Asiatic garden beetle, clover mites, cabrotica beetle, leaf beetle, Fuller's rose beetle, Japanese beetle, RED SPIDER MITES, ROSE SLUGS, lace bugs, tent caterpillars, June beetles, leaf hoppers, leaf rollers.

K MART ROSE & FLOWER BOMB can be used effectively on ROSES, Carnations, Dahlias, Asters, Chrysanthemums, Azaleas, Geraniums, Gladioli and Camelias.

FUNGICIDE, PESTICIDE, MITICIDE

READ LABEL DIRECTIONS CAREFULLY BEFORE USING

DIRECTIONS: Shake before using. Remove cap. Hold container in an upright position and press nozzle, direct spray at insects or affected area. Apply a fine light spray, using a broad sweeping motion and holding nozzle 18 to 24 inches from plant. Apply just enough so that the plant does not appear visibly wet. Do not saturate. Cover both top and underside of the leaf surfaces.

WHEN TO APPLY: For best results apply preventatively before insects or diseases appear. Spraying should take place every 7 to 10 days, preferably in the early morning or evening when air is calm. Do not spray in direct sunlight or during mid-day heat. Avoid spraying when plants and foliage are wet.

CAUTION: USE WITH CARE. May be a skin irritant and sensitizer. Avoid contact with skin or inhalation of the vapor. If liquid does contact skin, wash immediately with plenty of soap and water. Harmful if swallowed. Do not contaminate food or any article that may enter the mouth. Not to be used indoors or in non-ventilated areas. Never apply to humans or household pets. Do not apply in combination with or closely following oil sprays. Keep out of reach of children and animals. Toxic to birds and fish.

WARNING: This container is under pressure. Always keep at room temperature. Nearness to heat may result in bursting. Never puncture or throw container into an incinerator or fire. Avoid direct sunlight, hot water, stoves, radiators, pipes or any other areas having above average temperatures.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

ACTIVE INGREDIENTS	
Pyrethrins	0.0255%
Technical Piperonyl Butoxide*	0.25%
Permethrin	0.128%
Other Cube Resins	0.236%
Captaf**	0.5035%
Dinitro-(1-methylheptyl) phenyl Crotonate & Dinitro-(1-methylheptyl) phenol and Related Compounds***	0.200%
Petroleum Distillate	0.060%
INERT INGREDIENTS	98.5910%
TOTAL	100.0000%

*Equivalent to 0.204% of (butylcarbityl (5-propylpiperonyl) ether and 0.051% of related compounds).
