

**DIRECTIONS FOR USE**

1. Seal the greenhouse by closing all doors, ventilators, windows and other entrances to be sure no one will enter greenhouse during fumigation.
2. Fumigate only when plants and foliage are dry, and have inside temperature between 70°F and 85°F. The walks may be wet down since they will cause the vapor to come closer to the plants.
3. Shake can vigorously to loosen the powder. Punch both circled eyelets completely, using a beer can type opener to make the opening. Place the cans uniformly spaced on the walks so that vapors will be distributed evenly to the plants.
4. Light the igniter and tilt can to throw powder away from one eyelet and insert burning igniter entirely inside the can. Prompt ignition will result. Place can on floor with holes pointed the length of the walk. Proceed quickly to the next can and proceed until all cans are ignited.
5. During fumigation keep greenhouse tightly closed for one hour. After fumigation ventilate the greenhouse thoroughly before resuming work.
6. For best results cans should be stored at room temperature.

Thiodan Pressure-Fumigators are recommended for use in greenhouses on Roses, Chrysanthemums and Carnations for the control of Aphis and Whiteflies.

**CAUTION — COMBUSTIBLE MIXTURE**  
(NEW YORK CITY C. OF A. NO. 1167)

# THIODAN

## PRESSURE-FUMIGATOR

### For Greenhouse Use

Controls up to 30,000 Cu. Ft.

POISON

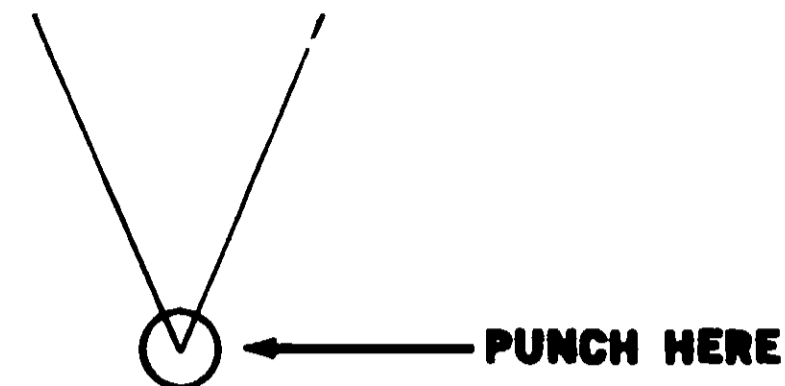

**ACTIVE INGREDIENTS:**  
Endosulfan (Hexachloro-hexahydro-methano-2, 4, 3-benzodioxathiepin oxide)..... 15.0%

**INERT INGREDIENTS** ..... 85.0%

**TOTAL** ..... 100.0%

**CAUTION:** Keep out of reach of children.  
(See side panel for other cautions.)

**ONE POUND NET**

**CAUTIONS AND WARNINGS:**

Wear clean SYNTHETIC gloves. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. To protect fish and wildlife, do not contaminate streams, lakes, or ponds with this material. Poisonous by Swallowing, Inhalation or Skin Contact: Do not breathe fumes. Do not get in eyes, on skin or on clothing. In case of contact, immediately flush skin or eyes with plenty of water for at least 15 minutes; for eyes, get medical attention. Remove and wash clothing before re-use. Wear a mask or respirator of a type passed by the U. S. Department of Agriculture for Thiodan protection. In case of contact thoroughly wash skin or eyes with soap and water. Immediately remove any contaminated clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Avoid using where aquatic life is present.

**NON-WARRANTY:** Seller's guarantee shall be limited to the terms of the label, and subject thereto the Buyer assumes any risk to persons or property arising out of use or handling, and accepts the product on these conditions.
