

# maneb <sup>Black Leaf</sup> fungicide

**CAUTION**  
 May irritate eyes, nose, throat, and skin. May be harmful if inhaled or swallowed. Avoid breathing dust or spray mist. Avoid contact with skin, eyes, and clothing. Keep away from fire or sparks. Store away from children, domestic animals, and food stuffs. In case of contact, flush with plenty of water; for eyes, get medical attention.

**NOTICE TO BUYER** — SELLER makes no warranty of any kind, express or implied, concerning the use of this product. BUYER assumes all risk of use or handling whether in accordance with directions or not.

**IMPORTANT:**  
 KEEP JAR TIGHTLY CLOSED

at weekly intervals.  
 Black Leaf Maneb Fungicide can be used to control fungus on vegetables and grapes as follows:  
**TOMATOES:** Early blight, late blight, Septoria leaf spot, gray leaf spot (Stemphylium) and anthracnose — Do not use on tender young seedlings in greenhouses as injury may occur.  
**POTATOES:** Early blight and late blight  
**CARROTS:** Leaf spot diseases.  
**CUCUMBERS:** Downy mildew, anthracnose.  
**LIMA BEANS:** Downy mildew. (Do not apply within 4 days of harvest)  
**ONIONS:** Downy mildew, purple blotch (blight) and blast (Botrytis leaf blight).  
**SPINACH:** Downy mildew (blue mold) and white rust — Do not apply later than 7 days before picking, and remove residues by washing or other effective means.  
**GRAPES:** (Great Lakes area) Black rot — Spray just before bloom, just after bloom, and 7 to 10 days later.  
**LETTUCE AND ENDIVE:** Downy mildew — Do not apply within 7 days of picking. Remove residues from head lettuce by stripping and trimming; and from leaf lettuce and endive by washing or other effective means.  
**CABBAGE:** Alternaria leaf spot and downy mildew — Do not apply within 7 days of picking.

Effective for control of black spot on roses

**CAUTION:**  
 KEEP OUT OF THE REACH OF CHILDREN
