

# House Plant Spray

## DIRECTIONS FOR USE:

For best results be sure to read this label carefully, following directions and cautions.

1. Shake gently before using.
2. Remove cap and point nozzle away from you with can in upright position.
3. Press button and spray at a distance of 18 inches from plant.
4. Spray when insects first appear, using short one or two second spray bursts. Repeat spraying when necessary.

**BLACK LEAF HOUSE PLANT SPRAY** is effective for the control of flea hoppers, spotted mites, aphids, white flies, and mealy bugs. The spray should be pointed directly at the pests on the plant; but, without wetting plants. Repeat treatments may be necessary for white flies and mealy bugs.

**BLACK LEAF HOUSE PLANT SPRAY** can be safely used on African violets, chrysanthemums, begonias, camellias, fuchsias, geraniums, roses, rubber plants, carnations, and snapdragons.

### CAUTION:

Do not apply to food crops. Avoid spraying in extremely hot sun. Do not use this product on nasturtium, maidenhair fern, cyclamen, and lantana. While using, cover exposed food stuffs and food utensils. Remove or cover fish bowls while spraying. Store upright in a cool location. Do not puncture can or throw empty can into fire or incinerator.

**WARNING:** Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator.

### NOTICE:

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
