

STATEMENT OF PRACTICAL TREATMENT

If swallowed — Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. If inhaled — Remove victim to fresh air. Apply artificial respiration if indicated. If on skin — Remove contaminated clothing and wash affected areas with soap and water. If in eyes — Flush eyes with plenty of water. Call a physician if irritation persists.

Note to physician: If signs of cholinesterase inhibition are present, atropine is antidotal. 2-PAM is also antidotal and can be administered in conjunction with atropine.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

May be fatal if swallowed. May be absorbed through the skin. Do not get on skin, in eyes, or on clothing. Wear rubber gloves. Do not breathe dust. Poisoning may occur as a result of exposure. Do not contaminate feed or food. Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with pesticides. Do not use around fruit trees or vegetable plants. Keep children and pets away from treated areas until product is worked and watered into the soil and treated areas are completely dry. Do not broadcast application to lawn. Wash hands thoroughly after handling. This product contains an organic phosphate which is cholinesterase inhibitor.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is toxic to pollinating bees and should not be applied when bees are actively visiting the area.

GENERAL DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Please use this product strictly in accordance with label warnings and cautions. Read carefully before use — Avoid contact of this material with hands, wear rubber gloves. Use the handy 1/2 oz. measure enclosed in this container.

BLACK LEAF SYSTEMIC PLUS FOOD 8-12-4 can be used to produce beautiful Roses and other ornamental plants, since it combines plant food elements (fertilizer) such as Nitrogen, Phosphate and Potash to produce vigorous plants and also a systemic insecticide that kills sucking insects that are damaging pests to Roses as well as other ornamentals. The systemic insecticide will flow through the entire plant protecting leaves, blossoms and new growth against such pests as Aphids, Leafhoppers, Thrips and spider mites. This internal systemic action will last for six weeks and will not be washed away by a rain or sprinkling since the insecticide is drawn up and into all parts of the plants internally.

HOW TO USE

PLANTS	APPLICATION	GENERAL
ESTABLISHED ROSES	Scatter 2 ounces evenly around the base of each plant and work the chemical 1 or 2 inches deep into the ground. Water thoroughly.	Repeat every six weeks to maintain vigorous growth. Avoid contact with hands. Wear rubber gloves.
NEW ROSE BUSHES	Throw 2 ounces into the transparent area facing into soil. Add about 1 1/2 ounces to the top 2 inches of the soil. Water thoroughly.	Repeat application every six weeks. Avoid contact with hands. Wear rubber gloves.
FLOWER BEDS Chrysanthemums Zinnias Carnations Asters Petunias	Use about 1 pound (16 ounces) to a 50 square foot area of flower bed. Work the material 1 to 2 inches deep into the soil. Water thoroughly. On new flower beds add seed after working material into soil.	Repeat application every six weeks. Avoid contact with hands. Wear rubber gloves.
POTTED PLANTS	For each six inch pot, use 1 tea spoonful and apply by punching small holes into soil, use a pencil and pouring into small holes. Water plants thoroughly.	Repeat once every six weeks. Avoid contact with hands. Wear rubber gloves.
ORNAMENTAL SHRUBBERY Evergreens Lilacs Azalea Rhododendron	Distribute uniformly around base of each shrub extending to drip line, using 4 ounces of chemical for each 1 foot of height of shrub. Work 1 to 2 inches deep into soil. Water thoroughly.	Avoid contact with hands. Wear rubber gloves.
When used as directed, the contents of this container can feed and protect as stated above as many as 24 Rose bushes or 150 square feet of plant beds for a six week period regardless of weather.		

STORAGE AND DISPOSAL

Do not contaminate food or feed by storage and disposal of this product. Do not reuse empty container. Wrap container and put in trash collection.

This product is sold by weight and not by volume. If it does not appear full when opened, it is because contents have settled during shipping and handling.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
