This formulation gives rapid kill of such crawling insects as listed below including those resistant to certain chlorinated hydrocarbon and phosphoric acid based. Spray roaches kill insects works after the spray deposit has dried.

- | | |
|-----------------|-------------------------|
| Ants | Howling |
| Brown dog ticks | Saw-toothed grass |
| Cloves mites | beetle (posposed stage) |
| Crickets | Scorpions |
| Earwigs | Silverfish |
| Fleas | Sowbugs |
| Millipedes | Spiders |

DIRECTIONS FOR USE

GENERAL

Spray surfaces to be treated. Do not spray away from people, plants, and pets. Spray only on surfaces. Do not use as a space spray.

INDOOR USE:

Ants, cockroaches, crickets, silverfish, spiders, scorpions, saw-toothed grass beetles (or posposed stage), waterbugs—Spray into cracks, crevices, around baseboards, and other places where these insects hide. Apply behind and beneath cabinets, refrigerators, sinks, stoves, and around waste containers. Repeat as needed. Do not spray foodstuffs or house plants. For ants, spray trails and places where ants enter premises. Do not allow children to contact treated surfaces until surfaces are completely dry.

BROWN DOG TICKS:

Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. Do not spray animals.

OUTDOOR USE:

Ants, clover mites, crickets, earwigs, fleas, millipedes, sowbugs, and brown dog ticks.—Spray infested areas thoroughly including outside surfaces of screens, decks, window frames, foundations, patios, or other places where insects enter. For ants, spray trails and runways. Repeat as necessary. Do not spray vegetation.

WARNING. KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly with soap and warm water after handling. Avoid contamination of food, utensils, and food preparation areas.

Remove pets and cover fish bowls before spraying. If poisoning occurs, get prompt medical aid.

To Physician: Atropine sulfate is antidote.

FLAMMABLE:

Do not spray into or near open flame. Do not smoke while using.

CONTENTS UNDER PRESSURE:

Keep container away from stoves, radiators, or other hot surfaces. Temperatures exceeding 120° F. may cause the container to burst. Do not puncture or incinerate.

Avoid excessive wetting of plastic, rubber, and asphalt surfaces such as tires and floor covering.

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.
