[5887-96]

DIRECTIONS FOR USE OF THURICIDE*

GENERAL: Apply at first sign of infestation and repeat at weekly intervals when needed to maintain control. Good underleaf coverage is essential since the insect must ingest Black Leaf THURICIDE^k. After eating Black Leaf THURICIDE*, insects stop feeding but may otherwise appear to be unaffected for several days. An adhesive or deposit builder may help where heavy dew or rains are encountered.

Store in a cool place Protect from freezing.

CONTAINER DISPOSAL: Do not reuse empty container. Destroy or discard in a safe place.

NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

THURICIDE[®] Reg. Trade Mark of International Minerals and Chemicals Corporation.
