BLACK LEAF   
SINCE 1978

# Yard & Patio Fogger

Ready To Use

Kills Ants,  
Flies, Gnats,  
Mosquitoes, and  
Other Listed Insects

ACTIVE INGREDIENTS:

+Resmethrin(5-phenylmethyl)-3-hydroxy-1,2,2-trimethyl-3-(2-methyl-1-propenyl) cyclopropanecarboxylate	0.250%
Related Compounds	0.034%
INERT INGREDIENTS	99.716%
TOTAL	100.000%

\*cis:trans isomers ratio: max. 30% (=) cis: min 70% (=) trans.  
U.S. Patent no. 3,465,007.

KEEP OUT OF REACH  
OF CHILDREN  
WARNING

See back panel for Additional Precautions.

NET WT. 16 OZ. (1 LB.) 456 g

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### NOT FOR INDOOR USE. SHAKE WELL BEFORE USING

Point spray nozzle away from face, and in the direction of the space to be treated. Direct spray away from people or animals. Press down valve button and allow spray fog to fill the air where flying pests linger. For larger areas, best results are obtained by spraying in the direction of a slight breeze that allows the fog to drift into the areas of infestation. Spray while moving away from treated area. Allow spray to disperse for several minutes before entering the treated area. Repeat as necessary.

**FLYING INSECTS:** Reduce annoyance from Flies, Gnats, Mosquitoes, and small flying Moths by directing spray from a distance of 4 to 6 feet (1-1/3 to 2 m) from grass, flowering plants, and shrubbery, to where insects may be resting. Direct spray to fill air around these plants without heavily wetting the plant foliage. Also spray around garbage cans and other breeding areas. Repeat as necessary. Spray directly on Hornets and Wasps. Thoroughly wet the nesting area during the evening when these insects are less active.

**CRAWLING INSECTS:** Spray directly on Ants, Centipedes, Sowbugs, and Spiders. Treat areas around garbage cans, picnic sites, and campgrounds infested by these pests. Also, thoroughly spray ant hills for best results. Spray in short bursts of 2 seconds, at a 4 to 6 foot (1 1/3 to 2 m) distance for control of Brown Recluse Spiders and Black Widow Spiders. Repeat application as necessary.

Spray outdoor areas of the yard, patio, and campground when there is no breeze, or spray in the direction of a slight breeze. Controls Flies, Gnats, and Mosquitoes up to 20 feet (6m) away, using this fog nozzle.

For information of this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Telecommunications Network at 1-800-858-7378.

### PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F (54° C) may cause bursting. Never throw container into a fire or incinerator.

### ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters.

### LIMITED WARRANTY AND DISCLAIMER

Buyer assumes all responsibility for safety and use not in accordance with directions.
