

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with eyes, skin or clothing. In case of contact immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists. Harmful if swallowed. Cover or remove exposed foods. Avoid contamination of feeding animals and food preparation surfaces. Remove pets, birds, and cover fish aquariums before spraying. Do not use on edible crops.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 120° F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake well before each use. Remove protective cap. Aim spray opening away from person. Push button to spray.

INDOOR PESTS—Kills Houseflies, Mosquitoes and Gnats. Close all doors and windows. Point nozzle upward. Liberal spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist. Then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

Kills Crawling Insects: Fleas, ticks, earwigs, grain mites, sawbugs, silverfish, spiders and centipedes. Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, basements, and storage areas. Spray directly on insects where possible. Repeat as necessary.

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS—TO REDUCE ANNOYANCE FROM FLYING INSECTS: Reduce mosquitoes, gnats (midges), houseflies, deer flies, horse flies and flying beetles (millers) by spraying their resting areas. Follow precautions listed above. Hold container 10 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of one to three seconds per cubic yard of space, while moving away from the treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS—TO PROTECT ORNAMENTAL PLANTS: To kill aphids, exposed thrips, adult whiteflies, leafhoppers, two spotted mites, plant bugs, spittlebugs and Japanese beetles on smaller (rhododendrons, pines, spruce, hemlock, spruce, dogwood, palm, mimosa, lily, viburnum, euonymus, oak, maple, locust, forsythia and lilac), and various woody ornamental shrubs on vines. Spray directly on insects. Hold container 10 inches from the treated plants. Spray in short spray bursts of one to three seconds or spray at the rate of one to one and a half seconds per second. Direct spray to all sides covering foliage until slightly moist. Avoid heavy weather. For 1 as necessary to obtain control.

Spray good on, etc. plants, smogproofing, agave, chrysanthemum, aster, geranium, marigold, dogwood, lily, etc. for control of aphids, exposed thrips, adult whiteflies, leafhoppers, plant bugs, spittlebugs and Japanese beetles. Spray as directed above.

USE WITH CAUTION on azaleas, juncos, roses, including hybrid tea roses, flowering quince, ash and camellias. These plants may be subject to leaf or flower burn under certain conditions of use.

For adult whiteflies and two spotted mites be sure to direct spray to contact these pests. Thoroughly cover the infested area. Use several repeat applications at two day intervals if necessary.

INDOOR PESTS—ON OR ENTERING BUILDINGS

Ants: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

Wasps and Hornets: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary. Spray directly on wasp and hornet nests that enter buildings.

Spiders: Direct short bursts of spray on spiders and repeat as necessary.

Earwigs: Spray directly on earwigs in crevices and other hiding places on outdoor porches, patio floor and driveway entrances.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herein.
