MIX WELL BEFORE USING

INSTRUCTIONS FOR CONTACT SPACE AND RESIDUAL SPRAYS

FOR INDOOR USE: In non-food areas of food handling establishments, commercial, industrial, office, residential, public, institutional and storage buildings, homes, hotels, ship cabins and hospitals. In hospitals patients should be removed prior to treatment. Also for use in hotels, automobiles, and non-food areas of trucks, trailers and ship cargo holds. Do not use on electrical equipment or on surfaces that can be damaged or stained by water. Size for use indoors in dog kennels and horse stables. In horse stables, use the application if horses will be used for food.

CONTACT SPRAY—KILLS AND REDUCES INFESTATIONS: COCKROACHES, CRICKETS, SILVERFISH, ANTS, CARPET BEETLES, CENTIPEDES, EARWIGS, FLOUR BEETLES, GRASSHOPPERS, MILLIPEDES, BLOWFLIES, SPIDERS. Apply as a contact spray. Fill spray tank with concentrate to 25% concentration. Spray formulation. Keep spray nozzle about 12 to 18 inches from surface to be treated. Adjust pressure and nozzle to deliver a coarse mist spray. When possible, spray directly on pests to reduce infestation. Spray thoroughly into hiding places such as cracks, crevices, under sinks, underneath ground pads and stoves, under refrigerators and other appliances, baseboards, and storage areas. Apply spray until area is moist, but not to the point of run-off. Spray directly on insects where possible. Repeat as necessary.

ANTS: In all areas: Spray trails, nests and points of entry within buildings and homes. Spray in and under possible nests as necessary.

FLEAS: Use in the control of fleas on dogs and cats, on pet bedding and on horse stalls. Apply directly to animals along head, under saddle and on other areas. Part hair to control skin and more good coverage. Load nozzle about one foot away while spraying. Apply until hair is thoroughly moist. Do not directly spray at eyes, or mouth of animal. To reduce infestation, thoroughly spray the animals bedding and other resting areas. Treat these areas of the run of two seconds per linear foot while spraying at a distance of 12 to 18 inches. Also spray entire inside surface of dog house. Repeat as necessary.

TO KILL BEDBUGS: Apply as a spot treatment to cracks and crevices around baseboards, floorboards, bedboards and walls. First, thoroughly clean and air mattresses and springs. Then, spot treat every space that may harbor bedbugs concentrating on tufts, folds and seams. Repeat as necessary. For persistent infestations, consult professional exterminator.

RESIDUAL SPRAY: Use in the control of COCKROACHES, CRICKETS, SILVERFISH, ANTS, CENTIPEDES, EARWIGS, GRASSHOPPERS, BLOWFLIES, SPIDERS. Lasts for up to 4 weeks. Spray baseboards, cracks and crevices, around door and window frames, and other hiding places such as closets, in back of and under appliances, sinks and cupboards in kitchens and bathrooms. In basements, spray hiding places in cracks and crevices, lower walls and dark places. Apply as a contact spray in a 4 to 8 inch band until area is thoroughly wet but not to the point of run-off. Repeat as necessary.

FRUIT FLIES, HOUSEFLIES, MOSQUITOES, MOTHS, GNATS: Apply as a space spray. Adjust pressure and nozzle to deliver a fine mist spray. Close all doors and windows and other tight sources which attract these insects. Keep the spray nozzle at least four feet from surface to avoid wetting or staining. Fill the room with mist to the degree rate of one fluid ounce per 1,000 sq. ft. of space. Then leave the treated area. Keep the room closed for at least 15 minutes. Repeat the room when treatment is completed and before re-entry.

OUTDOORS: To control mosquitoes spray around buildings, patios and paved areas. Apply as a contact spray. Spray directly on insects. Avoid spraying turf of plants.

ANTS AND FLEAS: Same as directed for indoor use.

WASPS, YELLOW JACKETS, HORNETS: Application should be made in late evening when insects are at rest. Spray liberally into flying and breeding places contacting as many insects as possible. Repeat as necessary.

CENTIPEDES, EARWIGS, MILLIPEDES, BLOWFLIES, SPIDERS: Apply as a contact spray, on the inside and
