

SANI FLUFF

POWDERED FABRIC SOFTENER AND BACTERIOSTAT

MT. HOOD CHEMICAL CORPORATION

PORTLAND, OREGON 97210

Fabric treated with SANI FLUFF as directed will impart residual bacteriostatic activity against gram positive (*S. aureus*) organisms under conditions of high relative humidity or wet contamination. SANI FLUFF is not effective against gram negative organisms.

SANI FLUFF softens clothes, thus eliminating chafing, "static cling" out of nylons and other synthetics. Improves ironing time.

For use in commercial laundry operations:
Rinse empty container thoroughly with water and discard it.

Use Directions:
Use 2 ounces SANI FLUFF per 100 lbs. of dry laundry in final rinse cycle.

E.P.A. Reg. No. 5891 15
E.P.A. Est. No. 5891 OR 1

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)
dimethyl benzyl ammonium chlorides 3.0%

n-Alkyl (68% C12, 32% C14) dimethyl ethyl-
benzyl ammonium chlorides 3.0%

INERT INGREDIENTS: 94.0%
100.0%

DANGER

Keep out of the reach of children. See right side panel for precautionary and first aid statements.

DANGER

Keep out of the reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
