

READ ENTIRE LABEL BEFORE USING

### DIRECTIONS FOR USE

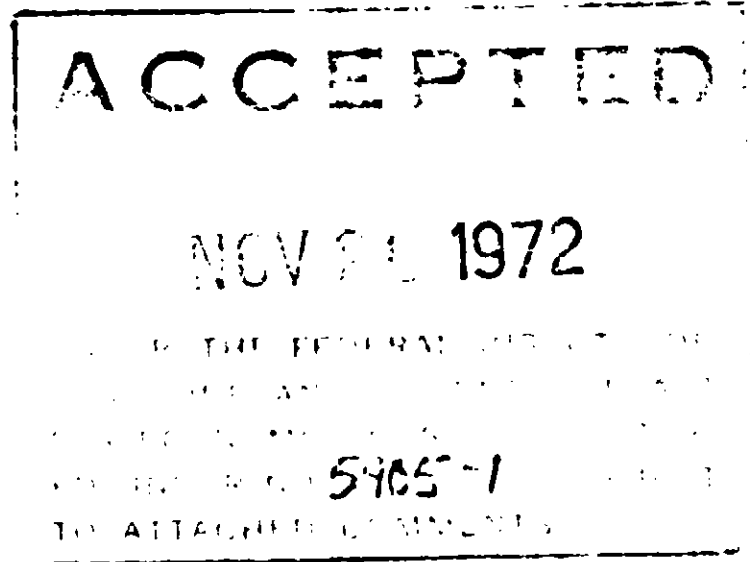

Effective for the control of Boll Weevil, Aphids, Leaf-worms and some species of Spider Mites. Do not apply when weather conditions favor drift of dust from crop area treated.

### DIRECTIONS FOR USE ON COTTON

This material should be applied at the rate of 10 to 15 pounds per acre. If applied by air, wind should be very light. Either morning or evening applications are recommended. Emphasis should be on complete coverage. The time between applications should not exceed five to seven days. Do not apply this product within seven days of hand picking.

Consult your state agricultural extension service for timing of applications and other recommended uses consistent with label cautions.

DO NOT REUSE CONTAINER.  
DESTROY WHEN EMPTY.
