

**CAUTION**

Keep Out of the Reach of Children!

Harmful if swallowed. May cause irritation of eyes, nose, throat and skin. Avoid breathing dust. Avoid contact with skin, eyes, and clothing. Avoid handling with cuts or abrasions on hands and wear gloves. Wash clothing and equipment after application. Avoid contamination of irrigation water. Keep out of the reach of children and domestic animals. Avoid contamination of feed and foodstuffs, fertilizers, and seed.

CLEAN-UP is a granulated, non-selective weed killer designed to be applied dry to the surface of the ground for control of weeds and grasses. The product is formulated for use on industrial and other non-crop areas (fence rows, around buildings, equipment areas, industrial areas, pole yards, and storage tanks.) where lasting residual effect is desired.

**DIRECTIONS**

Clean-Up must be spread uniformly at rates given for effective weed control. Apply with a seeder or granular herbicide applicator. Killing action is primarily through the roots of plants, so moisture is required after application to carry the chemical to the root zone. With too little moisture, results may be slow to appear. Avoid application in hot dry weather.

For annuals or shallow rooted plants - Apply 1 pound per 100 square feet. Make application in the spring or when weeds are small.

For perennial and deep rooted plants - Apply 1 to 1½ pounds per 100 square feet. Where Johnson, Bermuda, and Vasey grasses are a serious problem, apply 1 ¾ pounds per 100 square feet for first application. For heavy or organic soils, apply at 2 pounds per 100 square feet. Make application whenever weeds and grasses are not over a few inches high. Rank vegetation should be cleared before treatment. This reduces fire hazard of dead weeds and aids in getting more even coverage of the area.

Net contents 25 lbs.
