

3 LB. CHLORATE DEFOLIANT - DESICCANT

CAUTION: KEEP OUT OF REACH OF CHILDREN
SEE SIDE PANEL FOR ADDITIONAL CAUTIONS

1 gallon of
HELENA 3 LB.
CHLORATE DEFOLIANT - DESICCANT
contains 3 pounds of
Sodium Chlorate
with a fire retardant

ACTIVE INGREDIENT:	
Sodium Chlorate	27.50%
INERT INGREDIENTS	72.50%
TOTAL	100.00%

GENERAL INFORMATION

Weather conditions and plant conditions affect defoliation. Weather conditions that favor good defoliation are high temperature, high humidity, low wind velocity, high to adequate soil moisture. Plant conditions which favor good defoliation are ample fertility and moisture, complete insect control. Nutrients should be ample but not too much nitrogen. LEAVES SHOULD BE GREEN AND TURGID (NOT WILTED, TOUGHENED OR STUNNED BY LACK OF FERTILIZERS)

MATURITY - Boll load heavy, all bolls mature, vegetative growth ceased, little or no second growth. Conditions which contribute to poor defoliation are those adverse to the above.

ACCEPTED
 March 7, 1975
 UNDER THE PROVISIONS OF THE
 FUNGICIDE AND FERTILIZER ACT
 FOR ECONOMIC REGULATION
 ED UNDER NO. 342578 SUBJECT
 TO ATTACHED COMMENTS.

WARRANTY

WARRANTY AND LIMITATION OF REMEDY - Helena Chemical Company warrants that this material is free from adulteration, and is ready for use at the time of purchase, returned to the manufacturer in accordance with the subject to the company's terms and conditions. Helena Chemical Company does not warrant the results of the use of this material. The company is not liable for any damage or loss resulting from the use of this material. Any liability arising from the use of this material shall be limited to the purchase price of the material and shall not include consequential damages, such as loss of profits or value.
