# Precautionary Statements Hazards to Humans And Domestic Animals - Land Danger—Poison

90 HOT SHALLOW

### POISONOUS IF SWALLOWED

IF SWALLOWED - Drink 1 or 2 glesses of water and induce vomiting by touching back of throat with finger or blunt object. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

POISONOUS BY SKIN CONTACT

Poisonous if touched by hands or spilled or splashed on skin, in eyes or on clothing (liquid goes through clothes.)

Breathing vapors, spray mist or dust may be total.

STATEMENT OF PRACTICAL TREATMENT
POISONING SYMPTOMS

RED

Perathion is a very dengarous poison. It rapidly enters the body by contact with all skin surfaces and eyes. Clothing wat with this material must be removed immediately. Exposed persons must receive prompt medical treatment or they may die.

Some of the signs and symptoms of poleoning are: Headache, neusea, vomiting, cramps, weakness, blurred vision, pin-point pupils, tightness in chest, lebored breathing, nervousness: sweating, wetering of eyes, drooting or frothing of mouth and nose, muscle spearns and come.

Call a doctor (physician), clinic or hospital immediately. Explain that the victim has been exposed to perathion and describe his condition.

# + FIRST AID TREATMENT +

--- REI

Call a doctor (physician), clinic or hospital immediately. Explain that the victim has been exposed to parathlen and describe his condition.

If bruething has stopped, start artificial respiration immediately and maintain until doctor sees victim.

If swellowed, drink 1 or 2 glasses of water and induce vamiling by touching back of throat with finger. Do not induce vamiling or give anything by mouth to an unconscious person. Get medical attention.

In case of contact, immediately flush eyes or skin with planty of water for at least 15 minutes while removing contaminated clothing and shoes. See doctor immediately.

## NOTE TO PHYSICIAN

Since any symptome from absorption of this combination product are likely to be those of parathlen interdeation, treatment should be directed towards the relief of cholinesterage inhibition.

Antidote — administer stropine sulfate in large doses, TWO to PCUR mg. intravenously or intramuscularly as soon as dyanosis is overcome. Repeat at 5 to 10 minute intervals until signs of stropinization appear. 2-PAM chloride is also antidotal and may be administered in conjunction with stropins. DO NOT GIVE MORPHINE OR TRANQUILIZERS. Parathion is a strong cholinesterase inhibitor affecting the central and peripheral nervous systems and producing cardiac and respiratory depression. At first sign of pulmonary edema, the patient should be given

of the pulson may occur and term retappes have been reported after initial improvement. VERY CLOSE SUPERVISION OF THE PATIENT IS INDICATED FOR AT LEAST 48 HOURS.

Consult your State Agricultural Extension Service or Experiment Station regarding posting treated areas.

## 

This pesticide is highly toxic to aquatic invertebrates and wildlife. Birds in treated areas may be killed. Do not apply directly to water or wetlands (swamps, bogs, marsnes and potholes). Runoff and drift from target areas may be hazardous to aquatic organisms in adjacent aquatic sites. Do not contaminate water by leaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to di. .t treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

## PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

## 

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

## RE-ENTRY STATEMENT -----

(

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Do not enter treated areas for 48 hours unless appropriate protective ciothing is worm.

Protective clothing means, at least, a hat or other suitable head covering, a long sleeved shirt and long legged trousers or a coverall type garment (all of closely woven fabric covering the body, including the arms and legs), shoes and socks.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. Inform workers of areas or fields that may not be entered without specific protective clothing, priod of time field must be vecated and appropriate actions to take in case of accidental exposure. An example of such information is given under written warnings. When oral warnings are given, warnings shall be given in a language customently understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

#### DANGER

Area treated with Methyl Parathion & Malathion on (insert date). Do not enter without appropriate protective clothing for 48 hours (insert State Department of Agriculture's re-entry interval, it more restrictive).

in case of accidental exposure to posticide spray or dust, wash the skin thoroughly with soap and water. Remove contaminated clothing and wash before reuse. If in eyes, flush with plenty of water. If inhaled, go to an area where the posticide has not been applied. Get medical attention if resided.

Reentry into treated fields is prohibited for 48 hours after application, unless all protective clothing and equipment required for early reentry as described elsewhere on the label are worn.

#### WORK SAFETY RULES -----

The National Pesticide Telecommunication Network is available for recommendations regarding poisoning management, emergency treatment, and other information regarding the toxicity of methyl parathion. The toll free number for the National Pesticide Telecommunication Network is 1-800-858-7378.

If handled indoors provide mechanical exhaust ventilation.

Keep all unprotected persons, children, livestock, and pets
away from treated area or where there is danger of drift. Do
not rub eyes or mouth with hands. If you feel sick in any
way, STOP work and get help right away, See First Aid (Practical
Treatment) section.

HANDLE THE CONCENTRATE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT:

Wear a protective suit of one or two pieces that covers all parts of the body except the head, hands, and feet. Wear chemical resistant gloves, chemical resistant aprom, and chemical resistant shoes, shoe coverings, or boots. Wear goggles or a face shield. Wear a pesticide respirator approved by the National Institute for Occupational Safety and Health under the provisions of 10 CFR part II.

USE ONLY WHEN WEARING THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT DURING MIXING/LOADING, APPLICATION, REPAIR, AND CLEANING OF APPLICATION EQUIPMENT, DISPOSAL OF PESTICIDE AND EARLY RESURENT INTO TREATED AREAS: protective suit of one or two pieces ocvering all parts of the body except the head, hands, and feet; chemical resistant gloves; chemical resistant shee coverings or chemical resistant boots); goggles or face shield; head or wide brimmed hat; NIOSE approved respirator.

no type Smaller than a Point ou copy green except where noted for

IF MIXING/LOADING IS PERFORMED USING A CLOSED SYSTEM, THE FOLLOWING PROTECTIVE CLOTHING AND EQUI MENT MAY BE WORN AS AM ALTERNATIVE: longsleeve shirt; long-legged pants; chemical resistant gloves; chemical resistant apron; shoes and socks. Goggles or face shield must be worn when the system is under pressure. All other protective clothing and equipment required for use with open systems must be available nearby.

IF APPLICATION IS PERFORMED USING AN ENCLOSED CAS OR COCKPIT, THE FOLLOWING PROTECTIVE CLOTHING AND EQUIPMENT MAY BE WORK AS AN ALTERNATIVE: long-sleeve shirt and long-legged pants; shoes and socks. Chemical resistant gloves must be available in the cab or cockpit and must be worn during entry to and exit fro the application vehicle. All other protective clothing and equipment required for use during application must be available in the cab and must be worn when exiting the cab into treated area. When used for this purpose, contaminated. clothing may not be brought back into the cab unless in an enclosure such as a plastic bag. REMEMBER-THIS CLOTHING IS INADEQUATE TO PROTECT YOU During repair and cleaning of application equipment AND EARLY RECOTEY TO TREATED AREAS! REFER TO PROTECTIVE CLOTHING AND EQUIPMENT REQUIREMENTS YBOAE'

IMPORTANT! If posticide comes in contact with skin, wash off with soap and water and contact a physician immediately. Always weak hands, face, and arms with soap and water before smoking, eating, drinking, or toileting.

AFTER WORK: before removing gloves, week them with soap and water. Take off all work clothes and shoes. Shower using soep and water. Hear only clean clothes when leaving job--do not wear contaminated clothing. Personal clothing worn during work must be stored and laundered separately from protective clothing and household articles. Store protective clothing separately from personal clothing. Clean or lausder protective clothing after each use. Respirators must be cleaned and filters replaced according to instructions included with the respirators. Protective clothing and protective equipment heavily contaminated or drained with methyl marathica must be destroyed according to state and local regulations. HEAVILY CONTAMINATED OR DESICHED CLOTHING CANNOT BE adequately decompanihated. During aerial application, HUMAN FLAGGERS ARE VROBLETTED.

## Storage and Disposal-

Peeticide Storage

Do not store below 20°F, (-7°C).

Do not use or store near heat, open flame or hot surfaces.

Knep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, replace lide and close tightly. Do not put concentrate or diute material into food or drink containers. Do not contaminate other pasticides, fertilizers, water, food, or feed by storage or disposal.

¢ .

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call 901-761-0050

To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place demand package in a holding container, identify contents.

Pesticide Disposal

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Weste representative at the nearest EPA Regional Office for guidance.

#### **Container Disposal**

Wetal containers- Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic containers- Triple rinse (or equivalent). Then ffer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

#### **DIRECTIONS FOR USE**

Do not use this product for any uses other than those specified on this label.

COTTON: Cotton aphid, boll wervil, some species of apider mites, fleahoppers, cotton leafworm and thrips. Use 1/2 to 2 pints per acre, depending upon degree of infestation and size of plants. Applications should not be made to cotton within 15 days of handpicking. Boll Weevils and Bollworms: Apply 2 quarts per acre in both early and late season or when the cotton becomes rank or insect infestations are severy.

Applications for control of wervils should begin when insect injury is noted or when punctured squares reach 5%to 10%. Repeat applications on a 5-day schedule. Applications for the control of bollworms should be started when eggs are noted and 4 to 5 small worms are found per 100 terminals. Repeat applications on a 5-day schedule. Use 2 pints per acre when bollworm infestation exceeds 10%.

# CONDITIONS OF SALE - LIMIT. WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions, the failure to follow the label directions, or good application practices, all of which are beyond the control of Helena or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. Helena warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of Helena. Helena makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantibility or fitness for any particular purpose, and no such warrant shall be implied by law.

The exclusive remedy against Helena for any cause of action relating to the handling or use of this product is a claim for damage and in no event shall damages or any other recovery of any kind against Helena exceed the price of the product which causes the alleged loss, damage, injury, or other claim. Helena shall not be liable and any and all claims against Helena are waived, for special, indirect, incidental, or consequential damages or expense, of any nature, including, but not limited to, loss of profits or income, whether or not based on Helena's negligence, breach of warranty, strict liability in tort or any other cause of action.

Helena and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
