**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Avoid breathing of spray or vapors. Wash hands with soap and water after handling. Avoid contamination of food and foodstuffs.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting. Do not give liquids. Obtain medical assistance.

IF INHALED: Move to fresh air. If irritation develops, consult a physician.

IF IN EYES: Flush eyes with water for at least 15 minutes, holding eyelids open. If irritation develops, consult a physician.

IF ON SKIN: Wash skin thoroughly with soap and water. If irritation develops, consult a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal or equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CHEMIGATION PROHIBITION

Do not apply this product through any type of irrigation system.

REENTRY STATEMENT

Do not enter treated area without protective clothing until sprays have dried.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. (Indicate specific oral warnings which inform workers of areas or fields that may not be entered without specific protective clothing, period of time field must be vacated and appropriate actions to take in case of accidental exposure). When oral warnings are given, warnings shall be given in a language customarily understood by workers. Written warnings must include the following information: CAUTION: Area treated with Sol-Oil 97 spray on (date of

application.) Do not enter without appropriate protective clothing until sprays have dried.

STORAGE AND DISPOSAL

STORAGE: Keep container well sealed. Protect from excessive heat.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or, by other procedures approved by state and local authorities.

GENERAL INFORMATION

Do not apply oil sprays when trees are wilting or near wilting. In general, a period of 3 or more weeks should elapse between an application of sulfur or lime sulfur and an oil spray. Oil sprays applied after October 1 increase the susceptibility of trees to cold injury and may reduce the crop the following year.

Oil sprays should not be applied on bearing trees during August and September, since during this period they will seriously reduce the solids content of the juice and retard coloring. Oil sprays applied when the fruit is between 3/4" and 1-1/2" in diameter may result in oil blotch.

Avoid spraying with oil during periods of excessively high temperature (over 90° F.). Do not spray with this material if weather reports indicate freezing temperatures.

Do not use this material if it does not mix with water. Do not use in undiluted form.

MIXING AND SPRAYING

Pour recommended amount into nearly filled spray tank. Keep agitator running during filling, mixing and spraying operations. Do not allow mixture to stand. For scalicides to be effective, complete coverage is essential, necessitating a thorough inside and outside tree application.

CITRUS: *Florida Red Scale, Purple Scale, Soft Brown Scale, Black Scale, White Flies* - Use 5 to 6-1/2 gallons of SOL-OIL 97 to 500 gallons of water for approximately 1.0 to 1.3% oil strength. **FOR RED SPIDER CONTROL ONLY** - dosage may be reduced to 2-1/2 to 3 gallons per 500 gallons of water for .50 to .57% oil strength.

**CONDITIONS OF SALE - LIMITED WARRANTY
AND LIMITATIONS OF LIABILITY AND REMEDIES**

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions, the failure to follow the label directions, or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man, or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damage and in no event shall damages or any other recovery of any kind against the Company exceed the price of the product which causes the alleged loss, damage, injury, or other claim. The Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income.

The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability, and remedies.
