

R-100 RAT AND MOUSE KILLER

ACTIVE INGREDIENTS

Warfarin (2-naphthol-3-yl-4-hydroxy-coumarin)

00.025%

INERT INGREDIENTS

99.975%

TOTAL

100.000%

CAUTION: KEEP OUT OF REACH OF CHILDREN

R-100 is a potent anticoagulant. It is an effective rodenticide and an anticoagulant chemical. Therefore, it is highly effective against rats and mice. It is also effective against other rodents, but humans, livestock, poultry or pets will not be affected. It is a slow acting poison and takes time to take effect. Bait can be placed in any area where rodents are present. It is available in a tamper proof bait box.
