

powder. Apply 100-200 gals. diluted spray per acre. Do not apply Parathion within 14 days of harvest.

APPLES, PEARS — For use as a Dormant or Delayed Dormant Spray — To control San Jose Scale, Italian Pear Scale, Red Spider Mites and Mite Eggs, use at 1½ to 2 gallons; Aphid Eggs — Add organic phosphate insecticides following manufacturer's directions (best control in the Delayed Dormant stage). Summer or Foliage Application — Red Spider Mites, 3-4 qts. Summer stages of San Jose and Italian Pear Scales, 1-1½ gallons

ALMONDS, APRICOTS, CHERRIES, NECTARINES, PEACHES, PLUMS, PRUNES — Dormant or Delayed Dormant Spray — To control Brown Apricot Scale, Black Scale, San Jose Scale, Olive (Parlatoria) Scale, Oleander Scale, Red Spider Mites and Mite Eggs use at 1½ to 2 gallons. Overwintering Aphid Eggs — Apply as a Delayed Dormant for best control. Add organic phosphate insecticides following manufacturer's directions. Summer or Foliage Application: Red Spider Mites, 3 to 4 quarts; Summer stages of Brown Apricot Scale, San Jose Scale, 1 to 1½ gallons.

PEARS — To control Pear Psylla — As a Delayed Dormant Spray use 2 gallons; as a Summer or Foliage Spray use 1 to 1½ gallons. Addition of organic phosphate insecticides according to manufacturer's directions will increase this spray's effectiveness.

LEMONS — Red Scale, Yellow Scale, Purple Scale, Red Spider Mites — to 1¼ gallons. Lemons should be sprayed during winter and spring for better insecticidal effectiveness and generally greater safety to trees.

OIL SPRAY

ACTIVE INGREDIENT	By Weight
Petroleum Oil	98%
INERT INGREDIENTS	2%
TOTAL.....	100%

PETROLEUM OILS CLASSIFICATION — UNCLASSIFIED
UNSULPHONATED RESIDUE — 96% MINIMUM

Contains Humble Oil & Refining Company's ORCHEX-796*

SUPERIOR 796 OIL SPRAY is a contact oil insecticide refined and manufactured to promote maximum insecticidal efficiency. This material can be used both as a dormant spray and as a foliage spray. In general, smaller amounts of SUPERIOR 796 OIL SPRAY can be used than with ordinary spray oil due to the increase in efficiency of this material.

*Orchex is a Humble Oil & Refining Company trade mark.

CAUTION:
KEEP OUT OF REACH OF CHILDREN

Label No. 36/2-67

USDA Reg. No. 5967-52

tank with water.

USE PRECAUTIONS:

Before using this product, be sure the tank is clean and especially that there is no sulfur residue present. SUPERIOR 796 OIL SPRAY should not be used with sulfur nor should it be applied to foliage which has had a recent application of sulfur (normally within 14 to 21 days). To determine if sufficient time has elapsed following a previous sulfur application and prior to anticipated use of SUPERIOR 796 OIL SPRAY, a portion of one tree can be sprayed with a mixture containing one quart of this material in 25 gallons of water. If an insufficient period of time has elapsed since the sulfur application, a foliage burn will be evident on the treated portion within 2 or 3 days. SUPERIOR 796 OIL SPRAY should not be used during or immediately prior to hot (above 90° F) or freezing weather, hot dry winds, rain or other unsuitable conditions. Avoid over-spraying or double spraying. Do not use this material if it does not emulsify.

NOTICE TO BUYER — Seller makes no warranty, expressed or implied, concerning the use of this product, other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
