Attention: Regulatory Affairs Department

Gentlemen:

Subject: Lime-Sulfur Solution
EPA Registration No. 5697-109
Label Amendment Dated March 15, 1984

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted.

1. Since powdery mildew on apples will usually require season-long applications, the directions for use should be revised to provide appropriate recommendations for use in cover sprays or the claim should be limited to early season control of powdery mildew.
2. Revise the container disposal statement to read "Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities."
3. Under the environmental hazards statement, add "or wetlands" to "Do not apply directly to water."
4. Under the Directions for Use, change "Caution" to "Note to User."

A stamped copy of the label is enclosed for your records.

Sincerely yours,

Henry M. Jacoby
