PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin, eyes, clothing. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply when weather conditions favor drift from the areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

REENTRY STATEMENT

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Do not enter treated areas without protective clothing until sprays have dried.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. (Indicate specific oral warnings which inform workers of areas or fields that may not be entered without specific protective clothing, period of time field must be vacated and appropriate actions to take in case of accidental exposure.) When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information. **CAUTION.** Area treated with Dormant Soluble (petroleum Oil) on (date of application). Do not enter treated area without appropriate protective clothing until sprays have dried.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. Protect from freezing. Keep in shade. In case of spill or leak on floor or paved surfaces, soak up with sand, earth, or synthetic absorbent.

PESTICIDE DISPOSAL: Open dumping is prohibited. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse container. Triple rinse residue from empty container and add rinse to mixture in spray tank. Return to drum reconditioner or disposal of drums in sanitary landfill in accordance with State and local regulations.

ACCEPTED

NOV 12 1987

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registered under EPA Reg. No. 5967-127

DORMANT SOLUBLE

ACTIVE INGREDIENT	By Weight
Petroleum Oil	99.00%
INERT INGREDIENTS	1.00%
TOTAL	100.00%

Classification - Dormant Heavy
Unsulphonated Residue - 70% Minimum

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

HARMFUL IF SWALLOWED. DO NOT SWALLOW OR INHALE.

See Additional precautions on side panel
PRACTICAL TREATMENT: (First Aid)

IF SWALLOWED: Administer water freely and induce vomiting by sticking finger down throat. Repeat until vomit fluid is clear. Professional medical assistance should be secured immediately.

IF ON SKIN: Rinse off material and wash skin with soap and water. Get medical attention if irritation persists.

NET CONTENTS GALLONS

Before using this product, be sure the spray tank is clean and contains just enough water to cover the agitator shaft.

With the agitator in motion (120 R.P.M. or more) add the amount of spray oil required for a full tank. Pump this mixture through the overflow and back into the tank for a minute or two. The mixture should turn white, indicating good emulsification. Then fill the tank with water.

If an injector is used, first add 25 to 50 gallons of water to tank with engine running to provide good pressure. Then put injector suction tube into the measured amount of spray oil, opening injector valve to allow the oil to be sucked into the tank. Then fill the tank with water.

DO NOT USE THIS MATERIAL IF IT DOES NOT EMULSIFY.

DORMANT SOLUBLE OIL is a prepared emulsive dormant oil to be used on the crops appearing on this label when these are in the full dormant period.

BROWN APRICOT SCALE AND BLACK SCALE: Apricots, Almonds, Cherries, Peaches, Prunes, Nectarines and other deciduous fruits. Use 2% to 3% gals. per 100 gals. of spray.

BROWN ALMOND MITE EGGS, ITALIAN PEAR SCALE, SAN JOSE SCALE: Apricots, Almonds, Cherries, Peaches, Prunes, Nectarines and other deciduous fruits. Use 3 1/2 to 4 gals. to 100 gals. of spray.

LEAFROLLER EGGS: Apples, Apricots, Pears, Prunes. Use 4 to 5 gals. per 100 gals. of spray.

Use 400 to 800 gallons of water per acre; for concentrate spray dosages, consult your Cooperative Agricultural Extension Service.

STRAWBERRIES: To Burn Back Dormant Plants and Reduce Overwintering Spider Mite Population. Use 5 to 10 gals. per acre plus 2 to 3pts. of a General Dinitro Weedkiller or 2 to 3 qts. of MOYER'S NITRO KILL WEEDKILLER. Add enough water to obtain solutions indicated below.

By Ground - apply a minimum 75 gals. of spray solution per acre.

By Air - apply a minimum of 10 gals. and not more than 20 gals. of spray solution.

TO OBTAIN BEST RESULTS WITH THIS PRODUCT, SPECIAL ATTENTION SHOULD BE GIVEN TO THE FOLLOWING:

Use efficient equipment of the proper type, avoid spraying during or immediately prior to hot or freezing weather, hot dry winds, rain or other unsuitable conditions, avoid over-spraying or double-spraying.

Plants should be sprayed only when in vigorous condition and when their moisture condition is suitable. Consult with your Cooperative Agricultural Extension Service for maximum dosage rate in your local area.
